

Mayco Oil & Chemical Co.

Beaver & Canal Streets
Bristol, PA 19007

Congressional District: Pennsylvania's 8th Congressional District Current Representative
Current Representative Mike Fitzpatrick (R-Levittown)

EPA ID #: PAD004961579

Site Property Area: 7.5 Acres

Last Updated: 03/17/2015

Status

After Mayco ceased operations at the Bristol location in February 1983, the new owner, the Grundy Foundation (Grundy), began to develop the site, as an indoor ice skating rink/recreation center. Prior to and continuing during construction activities, Grundy had several consultants investigate, evaluate, and report on the environmental condition of the property. Remedial efforts included razing the Mayco structures and removing identified contaminated soils. The remediation effort was coordinated with PADEP. The facility remediated one concrete pit containing dieldrin contaminated sludge, and two areas where black stained soils were visually identified during a PADEP Inspection. Each of these locations were sampled and analyzed for dieldrin (a pesticide), volatile organic compounds (VOCs), and metals as the chemicals of concern (COC). Dieldrin met the Residential Statewide Health Standard. Some VOCs and metals in a few soil samples slightly exceeded PADEP's non-residential Statewide Health Standards, but these exceedances do not statistically contribute to a significant risk to human health or the environment when evaluating the entire facility property. On November 18, 1997, the Bristol Borough Recreation Authority was given a release of liability in accordance with the PADEP Land Recycling and Environmental Remediation Standards (Act 2) for soil contaminated with dieldrin.

The United States Environmental Protection Agency (EPA) has determined that no further action is required to make this property suitable for any type of land use. This is based on our findings as detailed in the Statement of Basis (SB). This determination is consistent with EPA's February 2003 *Final Guidance on Completion of Corrective Action Activities at RCRA Facilities* (reference 68 FR 8757).

Facility Description

The Mayco Oil & Chemical Company (Mayco) was located at 475 Beaver Street in Bristol Borough, in Bucks County, Pennsylvania. Mayco was bordered to the northwest by Canal Street,

by Beaver Street to the west, and by residential areas to the south and east. The facility covered approximately 7.5 acres.

Mayco operated a chemical and oil blending facility at the 475 Beaver Street, Bristol, Pennsylvania location from 1968 through 1983. The facility consisted of several buildings, numerous storage tanks situated both inside and outside of the structures, a railroad spur, and a loading dock area.
