

ABB Inc. Former CECAST (Formerly: Combustion Engineering)

Muse-Bishop Road
Muse, PA 15350
Congressional District xxx
EPA ID #: PAD045873197
Facility Property Area: 87 acres
Last Updated: 02/18/2014

Status

On July 14, 2003, the Pennsylvania Department of Environmental Protection (PADEP) and PADEP's consultants conducted a site visit. The visit consisted of a site tour, and information gathering to assess the current status of the facility. EPA is evaluating the available information to determine if the Environmental Indicators, Current Human Exposures and Migration of Contaminated Water, are under control.

Facility Description

The facility is located in the village of Muse, Washington County, Pennsylvania. The facility is currently inactive and no wastes are generated at the site. On July 18, 1980, Combustion Engineering submitted a Notification of Hazardous Waste Activity to the USEPA for generation and Treat/Store/Dispose (TSD) of U054, U080, U122, U123, U154, U188, U190, U201, and U226. The facility manufactured synthetic resins for the foundry industry and compound chemicals for use in the foundry industry.
