Re: Closure Report and Certification Approval
Heritage Environmental Services PR, LLC
Mayagüez, Puerto Rico
EPA ID Number: PRD091024786

Dear Mr. Hogarth:

The United States Environmental Protection Agency (EPA) has reviewed the Closure Report and Certification ("CR&C"), dated November 6, 2014, submitted by Heritage Environmental Services PR ("Heritage") for its facility in Mayaguez, Puerto Rico. The CR&C is the final step of the facility-wide closure process, which began in March 2014 when the facility filed a notification of facility closure for all the RCRA permitted units.

After a complete review of the CR&C, EPA has determined that all closure activities at Heritage were performed in accordance with the approved Closure Plan and in adherence with the closure requirements stated in Module II, Section M.5(a) of the existing RCRA Permit. Therefore, EPA approves the submitted CR&C. As per 40 C.F.R. § 264.143(i), Heritage is also hereby released from the financial assurance requirements for facility closure. The original Letter of Credit will be returned to the issuer bank by certified mail, as requested.

For additional information regarding this correspondence, please contact Angel E. Salgado of my staff at (787) 977-5854 or via email at salgado.angel@epa.gov.

Sincerely,

Jose C. Font, Director
Caribbean Environmental Protection Division
