RE: Final Determination for the Hazardous
Waste Leach Field and Septic System
Closure Plan - PRD000692582

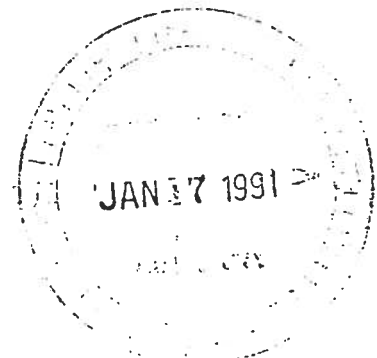

Dear Mr. Dávila:

In October, 1989 your company submitted to the Environmental Quality Board (EQB) and to the Environmental Protection Agency (EPA) a Closure Plan for the Hazardous Waste Leach Field and Septic System. The Public Notice for the Closure Plan was published on August 28, 1990 in two local newspapers and the forty five (45) calendar day public comment period ended on October 11, 1990.

Enclosed with this letter, you will find EQB's authorization of your Closure Plan. Closure Activities may begin as per the approved Closure Plan.

Be advised that the schedule for closure of the Hazardous Waste Storage Area begins once you receive this letter and for this reason all the activities stated in your Closure Plan must commence upon receipt of this authorization.

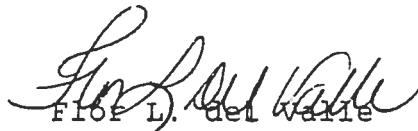

Once closure has been completed, as per the approved Closure Plan, a Closure Certification should be submitted to the EQB, as required in Rule I-805 (A)(7) of the Regulation for the Control of Hazardous and Non-Hazardous Solid Wastes, amended version.

-2-

We appreciate the professionalism and cooperation you have shown in expediting the closure review process. If you have any questions, please contact Ms. Carmen M. Rodríguez, of my staff, at (809) 766-2817 or 767-8181 ext. 2632.

Cordially,

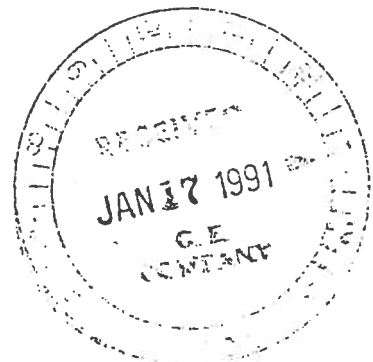

Flor L. del Valle
Director

RE: Final Determination for the
Hazardous Waste Leach Field and
Septic System Closure Plan -
PRD000692582

Dear Mr. Dávila:

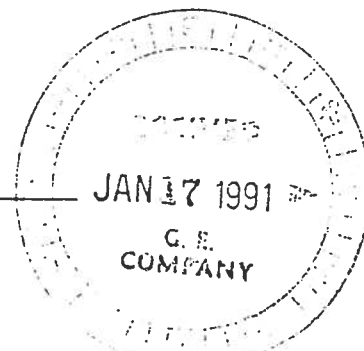

After evaluating the Closure Plan for the Hazardous Waste Area submitted in October, 1989, the Environmental Quality Board's Ruling Board has determined the approval of the document. This document was approved for being in accordance with the Environmental Law No. 9 approved on June 18, 1970 and with the requirements of the RCHWSW.

This approval is only and exclusively for the Closure Plan mentioned above, and evaluated by the Environmental Quality Board's Land Pollution control Area. Any change or amendments must be evaluated before entering in vigor.

RE: Determinación Final en el Plan
de Cierre para el Lecho de
Lixiviación y Sistema Séptico
de Desperdicios Peligrosos
PRD000692582

Estimado señor Dávila:

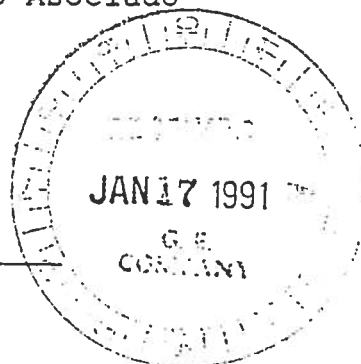

Luego de evaluado el Plan de Cierre para el Lecho de Lixiviación y Sistema Séptico de Desperdicios Peligrosos sometido en octubre de 1989, la Junta de Gobierno de la Junta de Calidad Ambiental ha tomado la determinación de aprobar el documento. Este documento fue aprobado por encontrarse de conformidad con las disposiciones de la Ley de Política Pública Ambiental, Ley Número 9 del 18 de junio de 1970 y los requisitos aplicables del RCDSNP.

Esta aprobación es única y exclusivamente para el Plan de Cierre arriba mencionado, y evaluado por el Area Control Contaminación de Terrenos de la Junta de Calidad Ambiental. Cualquier cambio o enmienda posterior deberá ser evaluada antes de entrar en vigor.
