

ATTACHMENT I

Description of Changes to the Final Permit for:

Guayabota WTP (PR0022799)

- ▶ All references to EDP have been revised in the final permit to indicate the actual date, May 1, 2012.
- ▶ Address has been change to reflect EPA Region 2 CEPD's relocation on Part I.B2. of all the permits mentioned above.

Typographical error

1. Correction made in Table A-1 for the free form of parameter Cyanide or Cyanide Free (CN), instead Cyanide.
2. Correction made for the (CN)'s monitoring frequency as Quarterly instead Monthly.
3. Correction made for the flow effluent limit for the discharge 001. It should read 113.56 m³/day.
4. Correction made for the daily maximum limit for Total Ammonia as indicated in Table A-1 is monitoring only, instead Quarterly.
