

22.207(455B) Relation to construction permits.

22.207(1) Construction permits issued after the voluntary operating permit is issued. If the issuance of a construction permit acts to make the source no longer eligible for a voluntary operating permit, then the source shall, in accordance with subparagraph 22.105(1)"a"(2), not operate without a Title V operating permit, and the source shall be subject to enforcement action for operating without a Title V operating permit.

22.207(2) Relation of construction permits to voluntary operating permit renewal. At the time of renewal of a voluntary operating permit, the conditions of construction permits issued during the term of the voluntary operating permit shall be incorporated into the voluntary operating permit. Each application for renewal of a voluntary operating permit shall include a list of construction permits issued during the term of the voluntary operating permit and shall state the effect of each of these construction permits on the conditions of the voluntary operating permit. Applications for renewal shall be accompanied by copies of all construction permits issued during the term of the voluntary operating permit.
