RE: Annual Pumping Statistics

I am sending this facsimile in order to obtain a portion of the Annual Community Public water Supply Statistical Report and Identification Survey for 1994. Specifically, I am interested in Form (B): Individual Source (Withdrawal Points) Statistics, which is usually page 3 of the statistical report. This portion of the report will show the annual yield of the two municipal supply wells by month for the 1994 calendar year.

I would also like to know the number of metered connections that the Upton Water & Sewer Dept. supplies.

This information can be faxed to me at (617) 272-3619.

Thank You.
