SITE: Covitch Property
BREAK: 115
OTHER: 556459

Dear Mr. Charest:

Roy F. Weston, Inc. (WESTON®) Superfund Technical Assessment and Response Team (WESTON/START) has been contracted by the U.S. Environmental Protection Agency (EPA) to perform Site Assessments in EPA Region I. In support of this work, I am requesting documentation of Federally endangered/threatened species within four radial miles and along the 15-mile downstream surface water pathway for the following properties:

Covitch Property / Former ATF Davidson Co.
Northbridge, MA
Latitude: 42° 6' 34.5"
Longitude: 71° 40' 24"

For this site please extend the four mile radius to 4.2 radial miles, due to the size and shape of the site. Enclosed is a photocopied portion of the U.S.G.S. 1:100000 scale Boston, MA quadrangle, indicating the 15-mile downstream pathway and 4-mile radial distance rings for which this information has been requested. The 15-mile downstream pathway begins at Meadow Pond at the above mentioned coordinates, then follows the Mumford River to where it empties into the Blackstone River. The 15-mile downstream pathway ends at the South Main Street bridge in Woonsocket RI.

Mr. Greg Charest
15 December 1995
