Dear Mr. Gendron:

As per my conversation with Mr. Michael Eichler from Caswell, Eichler, & Hill, Inc., on 15 May 1996, I am distributing duplicates of photographs taken during the 2 May 1996 on-site reconnaissance of the Covitch Property/Former ATF Davidson Co. property. The enclosed photographs were taken during the portion of the on-site reconnaissance guided by Mr. Eichler and are primarily photographs of exterior locations throughout the property. The photographs of the interior portions of the on-site buildings, corresponding to the portion of the on-site reconnaissance guided by Mr. Drawas and Mr. Lonergan, are being sent to Mr. Leonard Jolles of The Shop at Whitinsville.

I am also sending this letter to request a copy of the September 1985 Caswell, Eichler, & Hill, Inc. report entitled *Monitoring Well Installation and Soil and Groundwater Quality Analyses: Sidney Covitch Properties*. The report that I obtained from the Massachusetts Department of Environmental Protection file contained the Arcade Property volatile organic compound (VOC) groundwater analytical data (M-series wells) instead of the Covitch Property analytical data (MC-series wells).
