NPDES Construction Dewatering Discharge, BASIN CODE 73

Dear Ms. Vergara,

The Massachusetts Department of Environmental Protection, Division of Watershed Management, has reviewed the notice of intent to be covered under the General Permit for Construction Dewatering Facilities (<http://www.epa.gov/region1/npdes/dewatering.html>) for the above referenced application.

The Department concurs that this project should be authorized to discharge under the permit to the Neponset River, a Class SB waterbody in the area of the discharge.

The duration of the discharge is expected to last until April 2011 through three outfalls. Grab samples are to be collected for Total Suspended Solids (TSS) and pH. Oil & Grease analysis is required only upon the detection of a visible sheen. (See General Permit Part 1.2.6). The maximum daily limit for TSS is 100 mg/l and the monthly average limit for TSS is 50 mg/l. The limit for pH is 6.5-8.5 (or natural background values).

The applicant should note only TSS and pH are covered under this General Permit. A groundwater remediation general permit should be obtained from the Environmental Protection Agency to discharge wastewater containing significant quantities of any other pollutants. Mr. Victor Alvarez at 617-918-1572 can be contacted for more information. Please call me at 508-767-2854 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert Kubit".

Robert Kubit, P.E.

6. Describe the history of land use at the site:

Wetlands on the site were filled in the 1960's. National Banking since that time. Approved Chapter 91 permits include #'s: 5731, 5808, 5593, 5433 and 5481.

B. Effluent Characteristics (Refer to general permit in Federal Register Volume 67, Number 184, September 28, 2002, page 59503-59519)

No. of Discharge Points	Duration	Volume	Rate
DMH # 2 Outfall No.	70 Weeks	8-12 Gallons	Per Minute (GPM)
DCB # 18 *Emergency Use Only	70 Weeks	100 Gallons	Per Minute (GPM)
Culvert (18'x10'). Stations (1+00 to 14+00)	70 Weeks	50 Gallons	Per Minute (GPM)
Estimated start and completion dates for construction:		Nov. 20, 2008 Start Date	March 20, 2011 Completion Date

Description of any wastewater treatment:

Suitable BMP's will be utilized to prevent discharge of siltation to receiving waterway. BMP's will include at a minimum a double row of haybales and silt fence. Silt sacks and frac tanks will be utilized if required. Inspection to be performed by Quincy Conservation Commission.

Receiving waterbody:

Neponset River

- Is the site located within Indian country? Yes No
- Are any listed or proposed threatened or endangered species or designated critical habitat in proximity to the discharge site? Yes No
- Was the US Fish & Wildlife Service and/or the National Marine Fisheries Service contact in determining eligibility under the Endangered Species Act requirements? If yes, submit copy of written concurrence, where applicable. Yes No

B. Effluent Characteristics (continued)

Is any historic property listed or eligible for listing on the National Register of Historic Places located on the facility or in proximity to the discharge?

Yes No

Was the State Historic Preservation Officer or Tribal Historic Preservation Officer contacted in determining eligibility?

Yes No

C. Certification

I certify that each discharge for which I am seeking coverage under the general permit consists solely of effluent from discharges from the construction dewatering activities; and, based on the instruction at 1.C.1c, Limitations of Coverage, I have met the eligibility criteria under the Endangered Species Act and the National Historic Preservation Act. I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, I certify that the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I certify that I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
