Allan,

I assume when you state in your email that, "... this report concludes out commitment to provide information in response to your 308 letter," that PSNH will no longer be trucking Merrimack Station FGD treated wastewater off-site. However, I cannot comment on whether PSNH has fully complied with the requirements of EPA's 308 letter dated March 22, 2012. I suggest PSNH's attorney, Linda Landis, contact Region 1's attorney, Mark Stein to discuss this matter.

John

allan.palmer John, Please find attached our report to the Tow... 12/19/2012 01:33:46 PM

Subject: October & November Reports

John, Please find attached our report to the Town of Hooksett POTW for the month of October. This report is responsive to the request in EPA's 308 letter dated March 22, 2012 to continue to provide analytical data generated from the FGD treatment process beginning in May 2012. The Hooksett report is being provided as it was the only facility used during the month and it contains the sum total of all analyses that were conducted on FGD wastewater that was trucked off-site in October. This report contains one analysis for distillate.

No shipments were made off-site in November, so we have no data to submit for the month. Based upon my understanding, this report concludes our commitment to provide information in response to your 308 letter. Please contact me if you have questions.

Thanks, Allan.
