Subject: RE: Region 1 Weekly Report
Date: Tuesday, July 25, 2017 2:59:00 PM

Hi again –

I left detailed voicemail messages for both Zach Fabish, attorney for the Sierra Club in Washington, D.C., and Tom Irwin, attorney for CLF in New Hampshire, to inform them that we are going to reopen the comment period for the Merrimack Station NPDES permit. I explained that we had previously indicated that we were considering taking this step and now have decided to do so. I explained that we are reopening the comment period for certain specific issues and I briefly explained what those issues were. I also explained that the Statement of Issues should be available on our website either COB today or tomorrow, that the Public Notice should be in the newspaper on August 2, and that the 60-day comment period should begin on August 4.

- Mark
