Subject: Merrimack Station--Draft NPDES Permit No. NH0001465
Date: Tuesday, August 02, 2016 2:17:55 PM

Good afternoon Mark. A couple of weeks ago, we spoke briefly about EPA's interest in Merrimack Station's plans for complying with the applicable requirements related to bottom ash discharges under the Steam Electric effluent limitation guidelines. I talked to folks here about providing that information to EPA and was told that, at this time, we are still investigating options and talking with various vendors. As a result, we are currently not in a position to provide EPA with the requested information, but we will be able to do so once we have a plan in place, most likely after January 1st.

Please give me a call if you would like to discuss this further. Linda
