

7-6-2018

- Left telephone message for Attorney Zachary Fabish of Sierra Club

- My message indicated that after Schiller went out, we had increased our focus on Merrimack
 - we were already working on it, but increased our focus

- I indicated that we had received and reviewed their Letter of June 22, 2018

- I indicated we had had initial staff meeting about it and had follow-up meetings with management being organized and while I was not ready to give him a specific new timeline for Merrimack in this phone message, I indicated that we were discussing that and hoped that after our internal meetings I would be able to identify a timeline next week or the following week
