Hi Cayleigh,

Haha, I actually just talked to Alan Palmer a couple weeks ago about something else and asked him that same question out of curiosity. He basically said they hardly ever have any metal cleaning waste (maybe due to process changes under the reissued permit?) but when they do, they segregate it and measure for compliance before mixing with any other waste stream.

Michael

Subject: Is Schiller segregating its metal cleaning waste?

Hi Michael,

Sharon and I are working on metal cleaning waste for Merrimack, and we were wondering if you knew exactly what Schiller decided to do with theirs (segregate, combined wastestream formula?)

Thank you!
Cayleigh
