Hi Mark –

I have attached slightly revised Permit Modification for Transfer of Ownership documents for the Merrimack, Schiller and Newington Stations. The changes are to correct addresses for the facilities, to include a date reference for the Part II aspects of these permits, and to reference minor permit modifications for the Merrimack and Schiller Stations that have been issued since the original permits were put in place for those facilities. Please let me know if you need copies of any of the modifications or the April 6, 1990 Part II.

The Closing Date for the transaction is still in a bit of flux, but we will inform you of that date as soon as it becomes fixed.

Thank you for your continued attention to this matter.

Dave

**Subject:** Assignment and Assumption Agreement re NPDES Permits (Merrimack)

Hi Mark –

As you requested during the conference call with representatives of Granite Shore Power and PSNH on December 1<sup>st</sup>, I have attached in draft a template of an Assignment and Assumption Agreement between PSNH and GSP Merrimack LLC relative to the NPDES permit for the Merrimack Station facility. The wording of this agreement would be replicated in separate agreements particular to both the Newington Station and Schiller Station facilities.

Please feel free to contact me, Tim Tracy or Linda Landis if you have any questions.

On a related matter, thank you for forwarding the draft Permit Modification for Transfer of Ownership documents for the Merrimack, Schiller and Newington Stations. These are consistent with our discussions on December 1<sup>st</sup>. We will review the dates and citations referenced in each and provide you with any updates/corrections. Last, in the event that the planned closing date of December 29, 2017 changes, we will notify you immediately.

Thanks again for your assistance.

Dave
