6/7/2019 Tel. SG, Graham, T. Dickerson & Cayleigh E. + me

SG → VIP program still in effect, including 923.13(g)(3)(iii), which means legacy winchesters → get TSS limits
- we said we understand the technical point, and will decide it
- but conceptually - this appears to be LW subjected to TSS limits for BPT based on appearance, which 5th Cir rejected
- so were not sure
SG - not its different range because VIP is more strict by-term (redacted)
- They also rejected ILL in absence LW limits, no need for BPJ → Just fall back on existing BPT, which is already a 1982 R-L when Ell Gas Board FGP, so decided that to put limits on it (Law Vision Watch)
- cites to Ill. + Ky state Ct cases - 37 NE3d 407 (Ill App 2015) and 517 SW 3d 479 (Ky Sup Ct 2017)
We said ESA already decided BPJ was needed anyway, but SG said that was
