Date 5/25/10 Time 10:00I called (✓) was called by () Joe McKernof USFWSRegarding Shad restoration planTheir phone number 603-595-3586, email _____Discussion: Restoration plan - as is, will probably
be finalized this fall.Σ* Juvenile shad - temps. - refers to Stier and
Cormac. Suitability models - o feels they are indeed
representative.Σ* Larval shad in Hooksett Pool? o yes, definitely.Boskin - Franklin Reach - seen them in Amoskeag
will be stocking these reaches. (min 300 fish into one
spot at a time)Follow-up find them near river edge early. 5 feet or
below, as juvenilesdon't see Hooksett Pool as being
good - limited habitat - more
like a pond.(2-4" long)
pelagicyear class this year from 2006 - Mother's Day - floods.
Some shad arriving now. next few weeks
will fall.
