Dear Sir/Madam:

Merrimack Station

Report of Extraordinary Impingement Event on September 3, 1998

In compliance with Part I, Section A, 10.b.2, of Merrimack Station's NPDES permit (Permit No. NH0001465), Public Service Company of New Hampshire (PSNH) herein submits this report of an extraordinary impingement event (EIE). Verbal notification was given to the New Hampshire Fish and Game Department (NHF&GD), U.S. Fish and Wildlife Service (USF&WS), New Hampshire Department of Environmental Services (NHDES), and the U.S. Environmental Protection Agency (USEPA) Thursday afternoon, September 3, 1998.

Mr. William C. Ingham, Jr. et. al.
D13240/Page 2
September 4, 1998

As required in the permit, PSNH herein reports in writing to the NHF&GD, USF&WS, NHDES, and the USEPA an EIE which occurred at Merrimack Station on September 3, 1998.

On Thursday, September 3, 1998 at 7:30 a.m., two hundred and seventy four (274) juvenile river herring became impinged on Unit 2's circulating cooling water intake screens. Twenty river herring were preserved for further analysis by the USF&WS. The river herring ranged in length from 6.0 cm to 9.0 cm.

If you have any questions, please call Curt Mooney at (603) 634-2383.
