Subject: Site Plan & URS Report

John, Here is an updated site plan.

You should find the URS Report in the May 2010 FGD application. I am bit concerned, however, because we did collect two additional rounds of samples at the weir in February of 2010 that don't seem to be incorporated. I believe the intent was to provide more data to reduce the CoV factor applied by Jeff Andrews. I need to follow-up on what happened there with URS & DES.

Call if you have more questions, Allan.
