Attention: Russ Nylander, Chief Engineer

RE: Merrimack Station Environmental Monitoring Program Annual Report

Dear Mr. Nylander:

Enclosed please find a copy of our "Annual Report, Public Service of New Hampshire, Merrimack Generating Station, Environmental Monitoring Program" covering the period June 1987 through May 1988. This report is provided in compliance with Sections 6(a) and 7 of the Merrimack Station NPDES Permit No. NH 0001465.

PSNH apologizes for the delay of this submittal. As explained in the report, problems associated with data processing and manpower shortages have historically plagued the monitoring program. During a routine inspection at Merrimack Station on October 10, 1990, Allan Palmer suggested a schedule for submittal of future reports to Muriel Gill. The proposed target dates are as follows:

Annual Report for 1988 - 1989: Submit by 1/1/91
Annual Report for 1989 - 1990: Submit by 7/1/91

If you have any questions concerning this report or the Monitoring Program in general, please contact Paul Basiliere, Staff Environmental Analyst, at (603) 669-4000, extension 2684.

Very truly yours,

Dennis R. Brown
Director
Production Division
