History: This message has been replied to.

Eric: various folks stocked black bass in many places in the state, including the Merrimack River and ponds in the watershed. I have a record of them being stocked into Penacook Lake, which is in Concord and about 5 miles or so upstream of the Hooksett Pool. Does it matter to the NPDES permit process is NHFGD stocked them into the Hooksett Pool or not?

Hey John:

How do I find out if NHFGD has stocked bass (largemouth or smallmouth) in Hooksett Pool over the past 40 years?  
I'd appreciate any help you can provide.

Eric
