Allen,

The subject analysis was just placed in my hands Thank you for getting this document produced in a timely manner.

I will need an electronic version of this document. If the analysis is accepted by EPA, it will go into the Merrimack Determination Document. An electronic copy would expedite that process.

Thank you, John

Allan,

At some point, EPA will request an electronic copy of the BAT analysis. Region 1 will need the electronics, assuming we agree with the analysis, in order to include the BAT in the Determination document.

It will take us about two weeks to get back to after we receive copies of the BAT analysis. Are you sending the analysis to me? Three copies would be appreciated, if the analysis is large.

John
