History: This message has been replied to.

Please see Allan Palmer's status of the 308 Response. I indicated to Palmer, a delay would be appropriate if PSNH explains why the needed more time. I also felt going through Bill Smagula formally requesting an extension from Stephen Perkins was not needed.

John

Subject: 308 Response

John, As we discussed regarding our follow-up response to the Merrimack Station FGD WWTS BAT analysis, PSNH is not able to provide a complete package today. We have several parties working on the various questions and we can not pull it all together this quickly. More importantly, we are trying to thoroughly research the issues as discussed at Monday's meeting to provide a detailed and complete response, particularly as relates to ZLD. Since much of the requested information is proving to be difficult to locate and verify, I ask that the schedule be extended to December 3. If preferred, we can likely submit an initial response by 11/24 with a majority of the information. Please let me know your decision. Thanks, Allan.
