Subject: Edited Antideg Fact Sheet Language

Hi Allan, Gregg's finished commenting and I included most of his suggested changes which were minor. EPA has no comments at this point so this is what should end up in the publicly noticed Fact Sheet. Let me know if you find and glaring mistakes.

Thanks, Jeff

p.s. Beware that I'm having trouble printing this ... it could be something to do with formatting or margins associated with inserting an Excel Table into the Word document
