Allan,

Thank you for your voice mail of last Friday concerning release of the PIC.

Even though you said in the voice email the EPA is free to release the PIC to whomever we chose, EPA is still hesitant to do so. The cover letter that forwarded the PIC to EPA appeared to state that PSNH still considers the total redacted PIC capable of providing business information concerning Merrimack Station's operation.

In order that EPA understands that the PIC can be freely released by us, EPA requests either an email or letter from PSNH explicitly stating EPA is free to release the latest edition of the redacted PIC.

John
