Hi Linda - Yes, I thought yesterday was a very useful discussion. (It was also nice to have a chance to meet face-to-face.)

When you refer to a "proposal," I am assuming it pertains to an administrative compliance order. Is that right?

If so, I want to give Edie Goldman the option to join us. Edie is from our Enforcement Office (they are in charge of Admin Orders) and I am sure it would be helpful to have her on the line.

I could do tomorrow morning (except for from 9:30 to 10:30, when I have a commitment), and I am checking as to Edie's availability and desire to join us.

Let me know, if you are not referring to the compliance order, because then I could let Edie "off the hook." Otherwise, I will let you know how we want to proceed.

Thanks.

Hi Mark. On behalf of PSNH, I wanted to express our appreciation for your time and input yesterday. As you understand, we are in a unique situation--but one with such a positive end result. We are certainly most appreciative of any creative thinking on the part of our regulators to help us achieve that end result in a timely manner.

Barry Needleman and I would like to have a brief follow-up discussion with you to discuss the proposal we plan on drafting and submitting to EPA. Would you have a few minutes later this morning (before

12:30) or any time tomorrow morning?

Thanks again. Linda
