Mark: Here's a copy of the 2006 law requiring Public Service Company of New Hampshire to install a scrubber system at Merrimack Station. It is a unique law in that the state legislature has determined that it is in the public interest for PSNH to construct and operate a specific type of technology (a wet flue gas desulphurization system) at Merrimack Station as soon as possible. I look forward to discussing this further with you tomorrow at 9:30. Linda

Linda T. Landis, Senior Counsel
