Document Body

John,

I just left you a voice mail about this issue. I'm sure Tom will be happy to assist you and will respond to your request.

But, a faster way I like to use is the data base of the the old PCS system and ICIS found at http://www.epa-echo.gov/echo/compliance_report_water.html.

All four permits are available online and attached in these pages.

Here, check this out...just list the permits you wish to search for on this search page (online), and it should take you to the next screen.

Search Compliance Data (Water Program - PCS)

Once you get here (in the actual program online) just click on the link to each facility (the underlined name). Then scroll down the page just a little and the links to the current permits are available .

Barbara,

These are the permits I requested from North Carolina. As I mentioned in my voice mail to you, I need some help or guidance on how to get copies of those permits and Fact Sheets.

Thank You, John

Subject: Request for Copies of NC Issued NPDES Permits

Tom,

I am permit writer for EPA Region 1. Presently, I am developing a permit for the coal-fired Merrimack Station electrical generating unit in Bow, New Hampshire. (Region 1 still develops NPDES permits for New Hampshire) Merrimack Station is just completing construction of a Flue Gas Desulfurization (FGD) system, including a wastewater treatment system (WWTS). I am interested in getting copies of four of your NPDES that appear to have limits for FGD WWTS. They are:

Mayo	NC0038377
Roxboro	NC0003425
Bellows	NC0024406
Allen Sta.	NC0004979

I have not been able to find copies of those NPDES permits and their associated Fact Sheets posted on your Web site. How would I, then, get copies of these documents.

I am hesitant to intrude, yet I sense these NPDES permit's will help Region 1 in its efforts to develop Merrimack Station's NPDES Draft Permit. I, therefore, deeply appreciate your help.

John
