Subject 308 Letter Response Date

Allan,

EPA agrees that an extension of the due date for the 308 letter is appropriate. For the public record, we request that PSNH request this extension by letter.

The extension request does not need a detailed justification for the extension. I suggest that PSNH simply state that after reviewing the information required by the 308 letter the company believes 75-days are insufficient. Then request EPA allow 120-days for PSNH response.

As soon as EPA receives the letter, we will respond positively to PSNH requests.

Do not hesitate to contact me if you have any questions or concerns.

John
