RE: Merrimack Station's Draft Permit, Permit # NH0001465

Mr. King,

On behalf of 1,448 CREDO Action members who live near the Merrimack River we urge you to require PSNH to implement a closed-cycle cooling system at its Merrimack coal plant.

The attached public comments were collected by CREDO Action, and though they vary throughout, the messages within can be summed up as follows:

The fish kills and water usage associated with the Merrimack coal plant are unacceptable. As someone who lives near the river and cares about the local environment, I urge you to require Public Service of New Hampshire to implement a closed-cycle cooling system at its Merrimack coal plant.

If you have any questions about the public comments, please don't hesitate to contact me through the information provided below.

Sincerely,
Josh Nelson
Campaign Manager, CREDO Action
