---

Sharon, I was surprised to receive a rejected package in the mail today. Turns out to be the CD I sent you on January 2 with all of the data from our most recent 308 response. Unfortunately my secretary did not use the letter's address but pulled the address for your old office from her computer and the CD has been in USPS purgatory every since. She sent it out today with the correct address.

Sorry for the mix up, Allan.

PS: Any progress on going from monthly to quarterly reporting for the rest of this year?
