

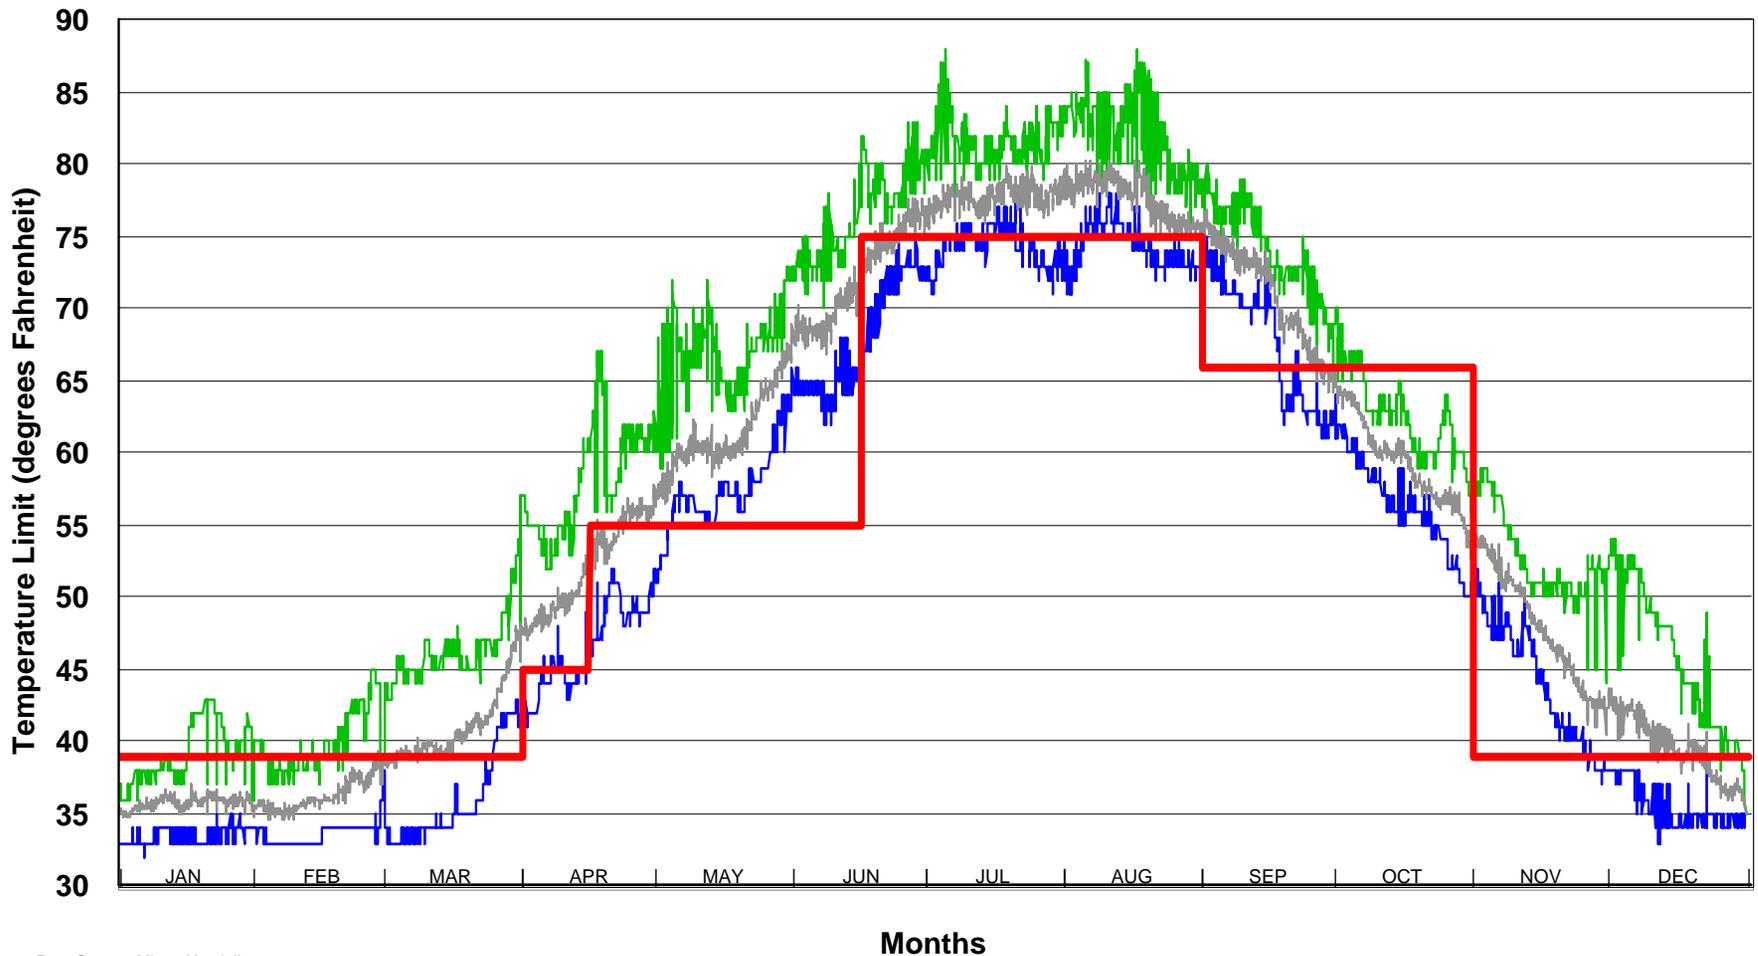

Figure C45 CLF-4. Maximum temperature limits proposed by CLF for the protection of the most temperature sensitive life stage of resident and anadromous species (yellow perch and alewife), compared with maximum, average and minimum Kendall Station intake hourly temperatures from 1994 through 2002.

Data Source: Mirant Kendall

1994 - 2002 Min Temps

1994 - 2002 Max Temps

1994 - 2002 Avg Temps
