RE: Response to Notice of Termination Request for MAG910700 – Hopkinton Gas – 1  
Grove Street, Hopkinton, MA 01748

Dear Mr. Sullivan:

This confirms receipt of a "Notice of Termination" for the above-mentioned project dated May 25, 2017. Based on the review of your NOT, the facility is no longer subject to the terms and conditions of the Remediation General Permit (RGP). Coverage will be terminated as of the date of this letter. Please note that further discharges, if any, from this site may require coverage under the National Pollutant Discharge Elimination System (NPDES) permitting program.

If, in the future, there is an additional new discharge into surface waters of the United States from this facility, an application for discharge must be made to the appropriate permitting agency at least 180 days in advance of the proposed discharge (see CFR §122.21(c)(1)). Any proposed new discharge which meets the definition of a new source, 40 CFR §122.2, must meet the requirements of any applicable new source performance standards for your industry, promulgated under the authority of 33 U.S.C. Section 1316, and shall protect state water quality standards. Any treatment required to be installed to meet new source performance standards, state water quality, or any other requirement of a permit would have to be installed prior to discharge to the waters. Discharge to waters without obtaining a permit would violate Section 301(a) of the Clean Water Act, and would subject you to the civil and/or criminal enforcement provisions of Section 309 of the Act.

Thank you for this notice of termination. Please do not hesitate to contact Shelly Puleo at 617-918-1545 or via email to [puleo.shelly@epa.gov](mailto:puleo.shelly@epa.gov) or Shauna Little at 617-918-1989 or via email to [little.shauna@epa.gov](mailto:little.shauna@epa.gov) for further questions.

Sincerely,

A handwritten signature in cursive script that reads "Thelma Murphy".
