Subject: Schiller Station, NPDES Permit No. NH0001473
Relocation of Outfall 016/017 to Outfalls 002, 003 and 004

Reference: Letter (C11556), from R.A. Janson to J.M. MacDonald dated September 10, 2002.

Dear Mr. Janson:

Public Service of New Hampshire (PSNH) has received your letter (see Reference) granting approval to repipe the discharge of the Schiller Station wastewater treatment facility (Outfall 016/017) to the cooling water discharges (Outfalls 002, 003 and 004). We have reviewed the four conditions and are agreeable to all of the required elements. As instructed, we are providing this letter to certify our acceptance.

PSNH appreciates the attention and cooperation of EPA and DES on this matter which allows us to move forward with construction this year. Please contact Allan Palmer, Senior Engineer, at 603-634-2439 if you have any followup questions.

Very truly yours,

John M. MacDonald
Vice President - Operations
