Subject: PSNH-Schiller NPDES Permit No. NH0001473 Reapplication

Dear Mr. Palmer:

As per your recent telephone conversation with Jeff Andrews, I am forwarding requested State application material.

Please note that EPA may not issue a permit until a state certification is granted or waived in accordance with the Clean Water Act, Section 401(a)(1) and pursuant to 40 CFR 124.55. New Hampshire RSA-A:13, I(a) states that "Applications for permits shall be made upon forms prescribed by the division of water supply and pollution control" In addition to federal forms, New Hampshire also requires in Env-Ws 403.01 that additional information be provided before review and certification of any permit issuance, reissuance or modification.

Accordingly, we ask that you submit the information described in the enclosed form letter with the attached checklists and example sketches.

If you have any questions relative to this matter, do not hesitate to call me at (603) 271-2457.

Sincerely,

Jacques A. Parent, P.E., Sanitary Engineer
