Sharon,

That's an error on our part. As the intake tunnel represents infrastructure that is critical to the continued availability of Unit 4, we request that the information be redacted in all areas of the report. Thanks for the catch.

Sorry for the delay, I left for Christmas shopping and never went back, Allan.

Subject: Schiller Report

Hi Allan,

On page 4 of the 2008 Schiller Report the length of the Unit 4 intake tunnel was redacted but this same information was not removed from pages 19 and 88. Would you please let us know what PSNH's intention is for this information. It doesn't appear to be CBI information as defined in 40 C.F.R. Part 2 Section 201.
Thanks.
