Hi Linda & Spence - Just a quick email to confirm that the permits office here has told me that the new Draft NPDES Permit for Schiller Station should go out today. I had told you both previously that we were shooting to get the draft permit out by the end of this month and it appears that we will make that goal. Michael Cobb of the permits office has told me that he called Allan Palmer yesterday to let him know and that the package of papers should be mailed out today. I will find out when material will be available electronically and let you know.

Thanks.

- Mark Stein
