**Massachusetts Department of Environmental Protection
Transmittal Form for Permit Application and Payment**

Instructions

1. Please type or print. A separate Transmittal Form must be completed for each permit application.

2. Your check should be made payable to the Commonwealth of Massachusetts. Please mail your check along with a copy of this form to: DEP, P.O. Box 4062, Boston, MA 02211.

3. Three (3) copies of this form will be needed.

Copy 1 (the original) must accompany your permit application.

Copy 2 must accompany your fee payment.

Copy 3 should be retained for your records

4. Both fee-paying and exempt applicants must mail a copy of this transmittal form to DEP, P.O. Box 4062, Boston, MA 02211

For DEP Use Only
Permit No. _____
Rec'd Date _____
Reviewer _____

A. Application Information

DEP Permit Code (the 7 or 8 character code from first page of permit application instructions):
BRPWM08A
Name of Permit Category:
NPDES Stormwater General Permit
Type of Project or Activity:
Municipal (MS4) Stormwater Management Plan

B. Applicant Information (Firm or Individual)

Name of Firm:
Town of Dalton

Or, if party needing this approval is clearly an individual:

Individual's Last Name: _____ First Name _____ MI _____

Street Address
462 Main Street
City/Town State Zip Code Telephone Number
Dalton MA 01226 (413) 684-6111 ext. _____
Contact: Ken Walto, Town Manager e-mail address (optional)
daltonth@bcn.net

C. Facility, Site or Individual Requiring Approval

Name of Facility, Site or Individual DEP Facility Number (if Known)
Town of Dalton
Street Address e-mail address:
same (optional)
City/Town State Zip Code Telephone Number
() ext. _____

D. Application Prepared by (if different from Section B)

Name of Individual or Firm:
Berkshire Regional Planning Commission
Address
1 Fenn Street, Suite 201
City/Town State Zip Code Telephone Number
Pittsfield MA 01201 (413) 442-1521 ext. _____
Contact: Amy Pfeufer LSP Number (21E only)

E. Permit - Project Coordination

Is this project subject to MEPA review? yes no
If yes, indicate the project's EOE file number (assigned when an Environmental Notification Form is submitted to the MEPA unit)
EOEA # _____ Is an Environmental Impact Report Required? yes no
Is this application part of a larger project for which two or more DEP permits are being or will be sought? yes no
List any other DEP permits that apply to this project:

Permit Category	Date of Submission (tentative or actual)	Transmittal Number (if application already submitted)

F. Amount Due

Special Provisions: Fee Exempt* (city, town or municipal housing authority)(state agency if fee is \$100 or less)
 Hardship Request [payment extensions according to 310 CMR 4.04(3)(c)]
 Alternative Schedule Project (according to 310 CMR 4.05 and 4.10)

*There are no fee exemptions for 21E, regardless of applicant status

JUL 28 2003

Check #: _____ Dollar Amount: _____ Date: _____
Please make check payable to the Commonwealth of Massachusetts and mail check and one copy of this form to DEP, P.O. Box 4062, Boston, MA 02211

MUNICIPAL ASSISTANCE UNIT

BRP WM 08A NPDES Stormwater General Permit
Notice of Intent for Discharges from Small Municipal Separate Storm Sewer Systems (MS4s)

A. Instructions

Important:
When filling out forms on the computer, use only the tab key to move your cursor - do not use the return key.

Submission of this Notice of Intent constitutes notice that the entity named at item B1. of this form intends to be authorized by the DEP General Permit issued jointly with EPA for stormwater discharges from the small municipal separate storm sewer system (MS4), in the location identified at item B2. of this form. Submission of the Notice of Intent also constitutes notice that the party identified at item B1. has read, understands and meets the eligibility conditions of Part I.B. of the NPDES Small MS4 General Permit, agrees to comply with all applicable terms and conditions of the NPDES Small MS4 General Permit, and understands that continued authorization to discharge is contingent on maintaining eligibility for coverage. **In order to be granted coverage, all information required on BRP WM 08A, including the Stormwater Management Program Summary and Time Frames form, must be completed. Please read the permit and make sure you comply with all requirements, including the requirement to develop and implement a stormwater management program.**

B. Applicant Information

1. Small MS4 Operator/Owner Information:

Ken Walto, Town Manager
Name
462 Main Street
Mailing Address
Dalton MA
City/Town State
413-684-6111 daltonth@bcn.net
Telephone Number Email (if available)

2. Municipality Name

Town of Dalton
City/Town

3. Legal Status:

Federal City/Town State Tribal Private
 Other public entity: _____
Specify Public Entity

4. Other regulated MS4(s) within municipal boundaries:

MassHighway, State Routes 8 and 9

5. Based on the instructions provided in Part I of the NPDES Small MS4 General Permit, have the eligibility criteria for "listed species" and critical habitat been met?

yes pending no

BRP WM 08A NPDES Stormwater General Permit
Notice of Intent for Discharges from Small Municipal Separate
Storm Sewer Systems (MS4s)

B. Applicant Information (cont.)

6. Based on the instructions provided in Part I of the NPDES Small MS4 General Permit, have the eligibility criteria for protection of historic properties been met?

- yes pending no

Note:
Section C may
be duplicated to
accommodate a

PERMIT YEAR FIVE

Stormwater Management Plan: Town of Dalton

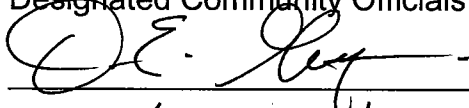

Prepared for:
Compliance with federal National Pollution Discharge Elimination System (NPDES)
Phase II Stormwater program

Prepared by:
Berkshire Regional Planning Commission

Submitted to:
US Environmental Protection Agency, Region 1
MA Department of Environmental Protection

Dates:
Approved February 24, 2003
Submitted: March 10, 2003

Designated Community Officials

Chair, Select Board

Town Manager

Highway Superintendent

Chair, Conservation Commission

Chair, Planning Board

Building Inspector

Stormwater quality issues unique to Dalton

- Sources of Sediment to Center Pond
- Presence or absence of Priority Organics in Center Pond
- Sources of pathogens to the East Branch Housatonic River
- Illicit discharges in the High St./Park St. neighborhood
- Illicit discharges in neighborhoods off Rt. 9
- Illicit discharges off E. Housatonic Street
- Illicit discharges in neighborhoods off Kirchner Rd.
- Impacts on stormwater from future residential/commercial/industrial development
- Residential practices such as lawn watering, fertilizer use, pet waste, septic system maintenance.
- Municipal practices such as street sweeping, catch basin cleaning, vehicle washing, sand/salt storage and application, pollution prevention.

Challenges Faced by Dalton

- Lack of funding and limited staff resources
- Burden of public awareness for federal regulations
- Limited existing regulatory authority
- Overlapping stormwater infrastructure with MA Highway Department
- Implementation waiting on model regulations yet to be prepared by DEP and EPA
- Staff and municipal board members need to acquire BMP and stormwater training

Potential Sources of funding

- State Revolving Fund (loans)
- 604b Water Quality Management Planning grants
- 104b3 Water Quality and Watershed Assistance grants
- s319 Nonpoint Source Pollution grants (may be limited)
- EOEA GROWetlands grants
- DCS Self-Help grants (land purchase)
- MET grants

Other

There are no Federally Listed endangered species known to inhabit Dalton. This was verified through a database search of the US Fish and Wildlife Service's Endangered Species program and the MA Natural Heritage and Endangered Species Program.

The following National Historic Register properties will not be negatively affected by this plan:

- Crane and Company, Main Street
- Dalton Grange Hall, South Street and Grange Hall Road
- East Main Street Cemetery, E. Main Street
- Fairview Cemetery, Curtis Avenue
- Main Street Cemetery, Main Street

Six Minimum Control Measures for Meeting NPDES Phase II Stormwater Requirements

1. Public Education and Outreach

The town will implement a public education program to distribute educational materials to the community and perform outreach about the water quality impacts of stormwater discharges and steps that can be taken to reduce them.

The program will focus on reaching citizens at home, through schools and workplaces and through regular town meeting and outreach events. Priorities will be defined based on important community water resources, especially Center Pond, and known sources of pollution, especially those that threaten public health.

BASIC PLAN ELEMENTS	MEASURABLE GOALS / BMP OPTIONS	RESPONSIBLE PARTY/TIMELINE
<p>REQUIRED: Distribute information to the public on the impacts of stormwater</p>	<ul style="list-style-type: none"> ▪ Develop educational brochures, or select brochures prepared by EPA, DEP, BRPC, Watershed Associations and others ▪ Distribute brochures in tax bills ▪ Distribute brochures to building permit and other permit applicants ▪ Develop list of contacts for local schools, watershed organizations, stream teams, neighborhood groups, etc. 	<p>Stormwater Committee, DPW and Conservation Commission, Year 1</p> <p>Tax Assessor, Years 2-5</p> <p>Building Inspector, Years 2-5</p> <p>Stormwater Committee, Year 3</p>
<p>REQUIRED: Distribute information about steps the public can take to reduce pollutants in stormwater</p>	<ul style="list-style-type: none"> ▪ Develop subsequent brochures on specific practices for reducing pollutants ▪ Distribute brochures as above ▪ Prepare an educational display for town hall/library 	<p>Stormwater Committee, DPW and Conservation Commission, Years 2-5</p> <p>Tax Assessor Years 3 & 5, Building Inspector Years 2-5</p> <p>Local school, Years 4-5</p>

Six Minimum Control Measures for Meeting NPDES Phase II Stormwater Requirements

3. Illicit Discharge Detection and Elimination

The Town of Dalton will institute an Illicit Discharge Detection and Elimination Plan (IDDEP) that concentrates on local priority water bodies, citizen input and measures of prevention. Most of the area covered under this program is served by public water and sewer, therefore septic influences are not anticipated.

The key to a successful IDDEP will be the passage of a municipal bylaw defining and prohibiting illicit discharges into the Municipal Separate Storm Sewer System (MS4). No existing illicit discharges will be grandfathered, therefore, an inspection/detection program will also be instituted to identify and remove these discharges. Recognizing that an established schedule must be followed for passing a new municipal bylaw, the detection, prevention and awareness aspects of the IDDEP will be initiated at the beginning of the 5-year program. The elimination aspects of the program will follow upon establishment of the regulatory authority.

BASIC PLAN ELEMENTS	MEASURABLE GOALS / BMP OPTIONS	RESPONSIBLE PARTY/TIMELINE
<p>REQUIRED: Develop a program to detect illicit discharges and dumping</p>	<ul style="list-style-type: none"> ▪ Prepare a program manual outlining each task with a schedule for implementation ▪ Identify priority areas based on water quality concerns, age of infrastructure, etc. ▪ Where dry-weather discharges are found, track the drain system upstream by visual inspection of catch basins and drop inlets ▪ Identify land uses of higher potential pollutant loads (as defined by the MA Stormwater Policy) on the MS4 map ▪ Set-up and advertise a hotline for reporting illicit discharges and illegal dumping and develop protocol for following up all calls within 24-48 hours ▪ Conduct additional annual field inspections based on public input and water quality sampling results from HVA 	<p>DPW</p> <p>Stormwater Committee, Year 1</p> <p>DPW, investigation within 24-48 hrs</p> <p>DPW, as funding allows</p> <p>DPW, Year 1</p> <p>DPW, as needed</p>
<p>REQUIRED: Develop a program eliminate illicit discharges and dumping</p>	<ul style="list-style-type: none"> ▪ Where illicit discharges are suspected, contact property owners by mail and solicit their help in resolving the situation ▪ Where illicit discharges are suspected, the town will have the authority to conduct surveys, audits, dye or smoke testing to locate source of discharges ▪ Where sanitary wastewater is suspected, the Board of Health or DPW will act to eliminate the connection immediately ▪ Enforce prohibition of non-stormwater discharge (see below) 	<p>DPW, as needed</p> <p>DPW, as needed, 1-2 expected per year</p> <p>DPW, Board of Health, as needed</p> <p>DPW, Years 2-5</p>

Six Minimum Control Measures for Meeting NPDES Phase II Stormwater Requirements

4. rising ground waters;
5. uncontaminated groundwater infiltration;
6. uncontaminated pumped groundwater;
7. discharge from potable water sources;
8. foundation drains;
9. air conditioning condensation;
13. Lawn watering;
14. individual resident car washing;
15. flows from riparian habitats and wetlands;
16. dechlorinated swimming pool discharges;
17. street wash water;
18. residential building wash waters without detergents.

Six Minimum Control Measures for Meeting NPDES Phase II Stormwater Requirements

5. Post-construction Stormwater Management

The town will develop, implement and enforce a program to reduce pollutants in post-construction runoff from redevelopment and new development projects.

BASIC PLAN ELEMENTS	MEASURABLE GOALS / BMP OPTIONS	RESPONSIBLE PARTY/TIMELINE
<p>REQUIRED: Regulate implementation of post-construction runoff controls</p>	<ul style="list-style-type: none"> ▪ Develop or amend existing bylaws to control/reduce runoff on new and redevelopment for sites >= 1 acre (cumulative), in upland or wetland areas ▪ Work with Planning Board to develop bylaw as part of Zoning, Subdivision and Special Permit regulations 	<p>Stormwater committee, Years 1-2</p> <p>Planning Board, Year 2</p>
<p>REQUIRED: Promote the use of appropriate BMPs</p>	<ul style="list-style-type: none"> ▪ Develop Site Review Procedures for Planning/Zoning/Conservation ▪ Provide training opportunities for board members to learn more about BMP technologies and how to use them (NEMO) ▪ Recommend appropriate BMPs in Performance standards for Subdivision/Special Permit regulations 	<p>Planning Board, Conservation Commission, Years 2-3</p> <p>Town Manager, Years 1 and 3</p> <p>Stormwater committee, Year 2</p>
<p>REQUIRED: Require BMP Operation, Maintenance and Funding Plans (O&M) for all new and redevelopment projects</p>	<ul style="list-style-type: none"> ▪ Place requirement for O&M plans in bylaw (see above) ▪ Encourage public reporting of problems ▪ Develop a record-keeping system for O&M plans 	<p>Stormwater committee, Years 1-2</p> <p>Town Manager, Year 1</p> <p>Planning Board, Conservation Commission, Year 2 and ongoing</p>
