#### 4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 1 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 2
4A Revised	Develop new by-laws for construction site run off	Planning/Conservation Commission	Draft proposed by-law and adoption by Town	Planning Board and Con Comm will review proposed by-law when it is received.	
4B Revised	Develop site review procedures	Planning/Conservation Commission	Site review Protocol adopted	Con Comm continues to review projects for proper erosion and sedimentation control. We require copies of NPDES applications for disturbance of > 1 acre. The Planning Board requires Site Plan Approval for all projects with more than 2500 sq ft or more than 10 parking spaces. Site Plan Approval incorporates review of stormwater management systems. Projects w/ more than 10,000 sf or 25 parking spaces require an Special Permit and in almost all cases, stormwater management systems are reviewed by a outside professional consulting engineer.	Con Comm will continue to review erosion control & dewatering methods as well as require copies of NPDES applications
4C Revised	Develop site inspection protocol	Planning/Conservation Commission	Site inspection protocol adopted	Con Comm inspects haybales/silt fence for proper installation and requires additional controls if necessary. At present, the Planning Board requires “as-built” plans and inspects construction on approved projects as necessary to ensure compliance. Planning Board uses consulting engineers to inspect subdivisions and other private development which is not a subdivision as deem appropriate.	Con Comm Will review new methods of erosion control and evaluating the use of compost in combination w/ erosion controls.

4D Revised	Set-up hotline for public complaints	Planning Department	Complaint registration/tracking procedure established	Once by law is accepted the hotline will be in place by Spring 06
