Re: National Pollutant Discharge Elimination System (NPDES)  
General Permit for Storm Water Discharges from Small  
Municipal Separate Storm Sewer Systems  
Annual Report for Town of Pembroke  
**Permit Number: MAR041054/MA DEP Transmittal Number: W035403**

To Whom It May Concern:

Pursuant to the requirements of EPA's "National Pollutant Discharge Elimination System (NPDES) General Permit for Storm Water Discharges from Small Municipal Separate Storm Sewer Systems" issued May 1, 2003; the Town of Pembroke is pleased to submit the enclosed Annual Report.

If you have any questions regarding this report, please feel free to contact me.

Very truly yours,

Michael F. Valenti  
Director

Enclosures

## **Part II. Self-Assessment**

**The town of Pembroke has completed the required self-assessment and has determined that our municipality is in compliance with all permit conditions, except for the following provisions:**

### **Part III. 6e**

As of January 2, 2005, the town's contract to retrofit the catch basins around Furnace Pond and Oldham Pond is 72% complete. The retrofit will include the installation of vortex separators and some re-piping. The contract will soon be complete.

### Part III. Summary of Minimum Control Measures

#### 1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 2 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 3
1a Revised	Air stormwater messages on local cable channel	Department of Public Works	Air a message every two weeks	The town's quarterly SWAC meetings are aired on local cable access channel. Stormwater messages were developed and are being aired on the local cable access channel.	The town will continue their quarterly SWAC meetings. One new message will be aired for two weeks every quarter.
1b Revised	Distribute/post non-point source pollution posters	Department of Public Works	Post in all schools and town-owned buildings	Posters were distributed to schools and posted in the Town Hall.	The town will check that the posters are still up. Replacements will be provided if the posters are missing or in disrepair.
1c Revised	Include stormwater info in Consumer Confidence Report	Department of Public Works	Distribute Consumer Confidence Report yearly to all residents	The town included information on stormwater pollution prevention in its annual Consumer Confidence Report. Several of the water bodies in town are drinking water sources for surrounding towns, and preventing pollution discharges from stormwater outfalls is necessary to keep these sources clean.	The town will continue to include information on stormwater pollution prevention in its annual Consumer Confidence Report.
1d Revised	Develop children's coloring book on Pembroke recycling	Board of Health	Distribute coloring books outside of Board of Health office	The town has developed an informative coloring book to educate children on the importance of recycling, which is available outside the Board of Health office.	Throughout all five years of the permit, the town will make this coloring book available outside the Board of Health Office.

#### 1a. Additions

#### 2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 2 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 3
2a Revised	Form Storm Water Advisory Committee	Department of Public Works	Hold quarterly meetings	The town appointed committee members to a Storm Water Advisory Committee (SWAC). The committee is spearheaded by the current Drainage Commission. It meets quarterly and includes both town officials and local residents.	The Storm Water Advisory Committee will meet quarterly in permit years three through five to review the town's progress and to ensure that the town's Storm Water Management goals are being implemented.
2b Revised	Collect household hazardous waste from residents	Board of Health	Hold household hazardous waste collection day once per year The town is holding their Household Hazardous Waste Collection Day in August as opposed to the spring as previously indicated.	The town held their annual household hazardous waste collection day this past year (August 14, 2004). It was announced in the local press, on cable and at BOH and Selectmen meetings. The town also continued its involvement in the South Shore Recycling Cooperative, which allows Pembroke residents to participate in the Hazardous Waste Days of surrounding towns.	Pembroke will continue to hold household hazardous waste collection days once per year in permit years three through five. Their household hazardous waste clean-up day for permit year two is scheduled for August 6, 2005.
2c Revised	Implement annual, volunteer waterways clean-up day	Department of Public Works	Hold waterways clean-up day once per year beginning in the Spring of 2005 (Permit Year 3)	The town held its first annual, volunteer waterways clean-up day on April 23, 2005. The focus was Herring Brook. Over 80 residents participated in the cleanup of approximately 1,000 linear feet of waterway.	Another waterway clean-up day will be held in the Spring of 2006.
2d Revised	Make SWMP available for public comment/review	Department of Public Works	Post SWMP in DPW office and Town library	Copies of the Stormwater Management Plan are available for public review and comment.	Throughout the third permit year, the town will continue to make the SWMP available at the town library, at the DPW office, and on the town website.

### 3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 2 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 3
3a	Map outfalls and receiving waters	Department of Public Works	Complete mapping by end of fifth permit year	The town mapped twelve additional outfalls this year.	The town's intent is to resume their outfall mapping during the third permit year. We plan to complete the required drainage system mapping by the end of the fifth permit year.
Revised					
3b	Develop illicit discharge detection & elimination plan	Department of Public Works	Make recommendations for proposed plan	None to date.	None. The development of the illicit discharge detection plan will begin in the fourth permit year. The illicit discharge detection and elimination plan will include methods for identifying priority areas and locating illicit discharges and their sources. It will also include a procedure for removal of illicit discharges. All actions will be documented.
Revised					
3c	Review existing bylaws and regulations	Department of Public Works/Stormwater Advisory Committee	Determine whether existing bylaws/regs are adequate	None to date.	The town will review the existing bylaws and regulations for requirements relating to illicit discharge detection and elimination.
Revised					
3d	Develop/modify general illicit discharge bylaw	Department of Public Works/Stormwater Advisory Committee	If necessary, propose recommendations for bylaw updates	None to date.	A general illicit discharge bylaw that meets USEPA requirements will be developed during the third permit year.
Revised					
3e	Present bylaw for Town meeting action	Department of Public Works/Stormwater Advisory Committee	Make presentations for Town meeting action, if necessary	None to date.	None. During the fourth permit year, the general illicit discharge bylaw will be presented for Town Meeting action.
Revised					

### 3a. Additions

### 4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 2 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 3
4a	Review existing bylaws and regulations	DPW/Planning/Zoning	Determine whether existing bylaws/regs are adequate	None to date.	The town will review the relevant sections of the Rules and Regulations Governing the Subdivision of Land, the Zoning Bylaws, and the Water Resource Protection Bylaw as required. The town will determine if they meet US EPA requirements for construction stormwater runoff control.
Revised					
4b	Develop/modify bylaws for construction site runoff	DPW/Planning/Zoning	If necessary, propose recommendations for bylaw updates	None to date.	The town will propose comments detailing recommended revisions to the existing controls as they relate to construction site stormwater runoff. Applicable bylaws will then be modified as necessary during the fourth year of the permit.
Revised					
4c	Present bylaw for Town meeting action	DPW/Planning/Zoning	Make presentations for Town meeting action, if necessary	None to date.	None. Applicable bylaws will be presented for Town Meeting action during the fourth year of the permit.
Revised					
4d	Review existing site inspection practices	DPW/Planning/Zoning	Determine whether existing practices are adequate	None to date.	None. The town will review the erosion/sedimentation control and drainage submittal requirements, as well as the site inspection practices, during the fourth permit year.
Revised					
4e	Develop/modify site inspection practices	DPW/Planning/Zoning	If necessary, make recommendations for updating existing practices	None to date.	None. During the fifth permit year, the town will make recommendations for improving site inspection practices.
Revised					

**4a. Additions**

### 5. Post-Construction Stormwater Management in New Development and Redevelopment

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 2 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 3
5a	Review existing bylaws and regulations	DPW/Planning/Zoning	Determine whether existing bylaws/regs are adequate	None to date.	The town will evaluate regulations regarding the control of post-construction stormwater runoff, including the Rules and Regulations Governing the Subdivision of Land and the Zoning Bylaws.
Revised					
5b	Develop/modify bylaws for post-construction runoff	DPW/Planning/Zoning	If necessary, propose recommendations for bylaw updates	None to date.	If necessary, revisions to the existing regulations will be proposed to ensure that post-construction storm water runoff controls for new development and redevelopment are addressed. The town will develop a post-construction site runoff control bylaw that meets USEPA requirements and will consider MA DEP Stormwater Management Policy Standard 3 (Recharge to Groundwater).
Revised					
5c	Present bylaw for Town meeting action	DPW/Planning/Zoning	Make presentations for Town meeting action, if necessary	None to date.	None. The post-construction site runoff control bylaw will be presented for Town Meeting action during the fourth year of the permit.
Revised					
5d	Review existing site inspection practices	DPW/Planning/Zoning	Determine whether existing practices are adequate	None to date.	The town will review existing site inspection and maintenance practices. The town will subsequently determine whether the existing site inspection and maintenance practices comply with USEPA's stormwater management plan requirements.
Revised					
5e	Develop/modify site inspection practices	DPW/Planning/Zoning	If necessary, make recommendations for updating existing practices	None to date.	None. In the fifth permit year, the town's existing site inspection and maintenance practices will be modified accordingly to ensure compliance with USEPA requirements.
Revised

## 6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 2 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 3
6a	Sweep streets & clean catch basins	Department of Public Works	Sweep all town-owned streets and clean all catch basins once per year	During the spring, the Pembroke Highway Department began sweeping. All streets in town will be swept, at least once, this spring. The town shares an additional sweeper with neighboring communities. The town has between 1,000 and 1,100 catch basins. This spring all catch basins will be cleaned at least once. Cleaning began in March 2005 and is ongoing.	In permit years three through five, the town intends to continue sweeping all streets and cleaning all catch basins once per year.
Revised					
6b	Maintain filtration system at North & Indian Head Rivers	Department of Public Works	Inspect baffle tank and leaching basin, and remove sediment	In the fall of 2004, the town removed sediment and inspected the filtration system installed at the confluence of the North and Indian Head Rivers.	The town will continue to regularly maintain this filtration system during permit years three through five.
Revised					
6c	Train municipal employees at each facility	Department of Public Works	Target all applicable municipal facilities	The town performed site visits to examine existing practices at 3 municipal facilities (Town Hall, Center Street Ball fields, and the Community Center complex). Recommendations will be made, based on input from employees, on the need for additional training programs.	During the third year, the town will continue the process of examining existing practices at municipal facilities. Also, the town will train employees at these facilities. In the fourth and fifth years of the permit, annual follow-ups will be performed to ensure that employees working at these facilities are following the required stormwater management practices.
Revised					
6d	Implement items in EPA env. audit report for DPW facility	Department of Public Works	Ensure action items completed and BMPs followed	The town made changes during the first permit year to comply with this program that included prohibiting municipal vehicles from being washed outside and developing a SPCC plan. The town continues to comply with this program.	The town will continue to comply with the items included in the EPA Environmental Audit report for the DPW Facility throughout permit years three through five, and beyond.
Revised					
6e	Retrofit catch basins around Furnace and Oldham Ponds	Department of Public Works	Install vortex separators and new piping	As of January 2, 2005, the town's contract to retrofit the catch basins around Furnace Pond and Oldham Pond is 72% complete. The retrofit will include the installation of vortex oil/water separators and some re-piping.	Work will be completed and the catch basins and vortex units will be maintained and cleaned regularly.
Revised
