Enter your transmittal number

W063396

Transmittal Number

Your unique Transmittal Number can be accessed online: http://www.mass.gov/dep/counter/trasmfrm.shtml or call DEP's InfoLine at 617-338-2255 or 800-462-0444 (from 508, 781, and 978 area codes).

Massachusetts Department of Environmental Protection Transmittal Form for Permit Application and Payment

1. Please type or print. A separate Transmittal Form must be completed for each permit application.

2. Make your check payable to the Commonwealth of Massachusetts and mail it with a copy of this form to: DEP, P.O. Box 4062, Boston, MA 02211.

3. Three copies of this form will be needed.

Copy 1 - the original must accompany your permit application. Copy 2 must accompany your fee payment. Copy 3 should be retained for your records

4. Both fee-paying and exempt applicants must mail a copy of this transmittal form to:

DEP
P.O. Box 4062
Boston, MA
02211

* Note:
For BWSC Permits,
enter the LSP.

A. Permit Information

1. Permit Code: 7 or 8 character code from permit instructions
NPDES Phase 2 Permit Annual Report

2. Name of Permit Category

3. Type of Project or Activity

B. Applicant Information – Firm or Individual

Town of Westborough

1. Name of Firm - Or, if party needing this approval is an individual enter name below:
Drewry Denzil

2. Last Name of Individual
Chairman, Board of Selectmen, Town Hall

3. First Name of Individual
Denzil

4. MI

5. Street Address
Westborough

6. City/Town
John H. Goodhall, Jr.

7. State
MA

8. Zip Code
01581

9. Telephone #

C. Facility, Site or Individual Requiring Approval

1. Name of Facility, Site Or Individual

2. Street Address

3. City/Town

4. State

5. Zip Code

6. Telephone #

7. Ext. #

8. DEP Facility Number (if Known)

9. Federal I.D. Number (if Known)

10. BWSC Tracking # (if Known)

D. Application Prepared by (if different from Section B)*

1. Name of Firm Or Individual

2. Address

3. City/Town

4. State

5. Zip Code

6. Telephone #

7. Ext. #

8. Contact Person

9. LSP Number (BWSC Permits only)

E. Permit - Project Coordination

1. Is this project subject to MEPA review? yes no
If yes, enter the project's EOE file number - assigned when an Environmental Notification Form is submitted to the MEPA unit.

EOEA File Number

F. Amount Due

Special Provisions:

- Fee Exempt (city, town or municipal housing authority)(state agency if fee is \$100 or less).
There are no fee exemptions for BWSC permits, regardless of applicant status.
- Hardship Request - payment extensions according to 310 CMR 4.04(3)(c).
- Alternative Schedule Project (according to 310 CMR 4.05 and 4.10).
- Homeowner (according to 310 CMR 4.02).

NPDES Phase II Stormwater – General Permit**

Dear Environmental Reviewer:

With this letter, Earth Tech is formally requesting information about the potential impact of endangered species and/or critical habitat in the area being studied for the NPDES Phase II Stormwater – General Permit for the town of Westborough, Worcester County.

Telephone

The Phase II Stormwater Program is intended to develop, implement and enforce a storm water program designed to reduce the discharge of pollutants to the maximum extent practicable, to protect water quality, and to satisfy the appropriate water quality requirements of the Clean Water Act. In order to meet these objectives, the town of Westborough will follow that EPA's "minimum control measures", including Public Education and Outreach, Public Participation and Involvement, Illicit Discharge Detection and Elimination, Construction Site Runoff Control Measures, post-Construction Runoff Control Measures, and Pollution Prevention/Good Housekeeping for Municipal Operations.

The U.S. EPA website shows that there are three endangered species in Worcester County, the bald eagle, the small whorled pogonia, and the Indiana bat. After consulting the Massachusetts Natural Heritage Atlas 2000-2001 Edition, Earth Tech has determined that Westborough's stormwater system does not affect the rare wildlife or certified vernal pools in the town.

Earth Tech is requesting confirmation that there are no impacts from the stormwater system, including all endangered species and/or critical habitat. Should you have any questions regarding this request please call me at (978) 371-4006. Thank you for your assistance in this matter.

Sincerely,
Earth Tech

NPDES Phase II Stormwater – General Permit**

Dear Project Reviewer:

With this letter, Earth Tech is formally requesting information about the potential impact of any national, state or local historic or archeological resources in the area being studied for the NPDES Phase II Stormwater – General Permit for the town of Westborough, Worcester County.

Telephone

The Phase II Stormwater Program is intended to develop, implement and enforce a storm water program designed to reduce the discharge of pollutants to the maximum extent practicable, to protect water quality, and to satisfy the appropriate water quality requirements of the Clean Water Act. In order to meet these objectives, the town of Westborough will follow that EPA's "minimum control measures", including Public Education and Outreach, Public Participation and Involvement, Illicit Discharge Detection and Elimination, Construction Site Runoff Control Measures, post-Construction Runoff Control Measures, and Pollution Prevention/Good Housekeeping for Municipal Operations.

The National Register shows that there are seven historic resources listed in Westborough, the Cedar Swamp Archeological District, the Nathan Fisher House, the Lyman School for Boys, the Maples Cottage, the Jonah Warren House, the West Main Street Historic District, and the Westborough State Hospital. Earth Tech has determined that Westborough's stormwater system does not affect the historic locations in the town.

Earth Tech is requesting confirmation that there are no impacts from the stormwater system, including all national, state or local historic or archeological resources. Should you have any questions regarding this request please call me at (978) 371-4006. Thank you for your assistance in this matter.

Sincerely,
Earth Tech

NPDES Phase II Stormwater Permit Status

IDDEP

As of April, 2005, we have completed approximately 80% of our comprehensive town mapping of all basic drainage structures. These include all catch basins, inlets, manholes, and drainage outfalls. This was created by collecting field data via GPS, importing the data into the town's GIS, and verifying it with engineering plans when possible. Our intent is to complete this map, and continue to update and verify data that is questionable or incomplete. Also as part of this mapping project, the town has been delineated into areas according to all known receiving bodies of water as identified in section C of our original Notice of Intent (NOI). All structures, particularly outfalls, have been assigned to one of these receiving bodies according to their respective location.

Also as part of the field work, inspection of identified outfalls was conducted whenever possible and information about the size condition, and any evidence of illicit discharge was noted.

Our intent for the future is to complete the map of basic structures, and conduct ongoing inspection of outfalls and other areas of concern with regard to stormwater drainage. Also, collection of larger and non-point features such as detention basins, swales, and water quality inlets will be conducted.
