Part II. Self-Assessment

The Town of Stow has completed the required self-assessment for Year 3, and it has been determined that the Town is in compliance with the Permit, with the exception of the following variations from the Stormwater Management Program Summary that was issued as part of the Notice of Intent:

Section D.1. Public Education, BMP ID # 3-1; The educational materials which include the flyer to businesses has just recently been received by the Highway Department and there has not been sufficient time prior to the filing of this report for the flyer to be distributed yet. It is expected to be distributed in the very near future.

Section D.2. Public Participation, BMP ID # 3-2; The materials for the Photo Contest for the High School were just recently received by the Highway Department and there has not been time for them to be delivered to the High School yet. Those materials are expected to be delivered soon. As reported in previous years, the actual scheduling and implementation of the contest will, out of necessity, be at the discretion of the Regional School District.

Many of the other BMP's have been completed and the measurable goals met well in advance of the time table set forth in the program summary. These are noted in the "Progress" columns for the years 4 and 5 on the following pages.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach
