Part II. Self-Assessment

The Town Of Groton has completed its self assessment and has determined we are in compliance with the permit except for the following provisions.

Submission of report by May 1 2007

All outfalls have been located and are being compiled on a map with areas marked for federally listed endangered species or critical habitat. Once completed it will be sent to US Fish And Wildlife. This shall be sent before July 1 and will be forwarded to EPA and DEP when complete.

Groton currently has influence on two water bodies of concern which have a TMDL, the Nashua and the Merrimack. The Town is working with CEI and will have this report and recommendations after the start of the fiscal year when funding is available. I anticipate getting this ammendment to EPA and DEP no later than Aug 1st.

We have no outfalls that impact listed Historic Properties.

Groton is noted to have one Basins classified as Medium according to the Stressed basin list. The Squannacok nr West Groton #0196000. This area has no public sewer system and illicit discharge inspection has been completed. With the adoption of LID techniques, conversion of basins to leaching basins and our conditions of no net increase of water from construction projects, ground water recharge is being done to the maximum extent practicable and there is no known discharges to remove water from this basin.

Employee training has also been established for good house keeping measures in the work place, identifying illicit discharges in basins, proper salt and sand application rates and my fire related personnel have had some hazardous waste training.

NEW

Currently the Town is applying for a 319 grant to improve water quality of James Brook.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5
1a	Yearly flyer in tax bills	Tom Delaney/ highway	Reach all home owners	Complete River Awareness was the topic	Continue mailings with different themes
Revised	<i>Town wide mailing in corporation with NWRA</i>				
1b	Hazardous waste day	Board of Health/Recycling	Reduce waste	Fall 06 and spring 07 regional collection complete	Fall 07 regional scheduled
Revised					
1c	Increase recycling efforts within the Town	Board of Health/ recycling	Reduce waste	Have gone to a pay as you throw system and increased recycling 10-15%	Continue efforts
Revised					
1d	Water conservation equipment	Water Department	Reduce water use	Department continues to distribute water saving devices.	Continue with program.
Revised					

1a. Additions

1e	Educational programming	Highway	Inform public of educational programming	Cable TV advertised and airing of Reining In The Storm	Continue to show Different Storm water videos
1f	Low Impact Development Workshop	Planning Board	Public and contractor education	Complete	Update as needed

2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5
2a	Stenciling	Tom Delaney/ Highway	Stencil Basins to Waterways	Searching for volunteers	Trying to get help from eagle scout to do this project
Revised	<i>Drain markers on basin tops</i>	Tom Delaney/ Highway	Label basins as water only		
2b	Stream Cleaning and Ditch maintenance	Tom Delaney/ Highway	Increase water Flows	300+- feet of inlets and road side ditches cleaned and Rip Rapped	Continue to clean drop inlets and rip-rap all inlets and outfalls of all known pipes.
Revised					
2c	Increase cooperation with Nashua River Watershed Association	Tom Delaney/ Highway MRWA	Assist when we can to improve water quality	Continue to pickup debris from stream cleaning days.	Continue Cooperation with NWRA
Revised					

2a. Additions

2d	Installation of water crossing signs	Highway/NRW A	Mark streams that cross under roadways	Signage at all major perennial streams Major streams done and located on map and mailing.	All others to increase awareness
2e	Low Impact development Workshop	Planning Board/Highway	A move towards LID	Had Workshop and implemented Bylaw Fall 06	Continue to offer programs and incentives to developers. Workshop 5/30 with NRWA

3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5
3a	Visual inspection	Tom Delaney/ Highway	Detect illegal hookups	No hookups found	Monitor for illegal connections
3b	Bylaw prohibiting hookups into Town System	Tom Delaney/ Highway	Prohibit Discharge into MS4	Policy in place, planning board regulations to prohibit in place.	Upgrade as needed
3c	Mapping of Basins and Outfalls	Tom Delaney/ Highway	Map System	Create a program to link basins, manholes and outfalls together and put on Town GIS	Upgrade and update when new segments come on line

3a. Additions

4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5
4a Revised	Bylaw Subdivision Regulation	Planning Board	No net increase of water runoff from sites.	Bylaw in place	Revisit and make additions if and when necessary when our education of new and better requirements improve.
4b Revised	Town of Groton Wetlands Bylaw	Conservation Commission	Strict Regulations	50 foot no disturb bylaw in place and increased buffer to 200	In Place
4c Revised	Site Plan Review	Planning Board	Water Management in projects	Bylaws in place regarding any storm water management	In place
4d Revised	Erosion Control Bylaw	Planning Board	Sedimentation and erosion control.	Bylaws in place for erosion Control as well as an enforcement officer and a system in place for fines.	In place
4e Revised	Bylaw for open drainage in New construction LID <i>Also long term maintenance addressed in new regulations.</i>	Planning Board/ Highway	Open drainage for ground water recharge	In place spring 06	Used model from DEP and attorney general and modified it to Groton.

4a. Additions

	New storm water committee	Selectman	Update Erosion committee to include Stormwater in scope	Spring 07	Done
	New Storm water Bylaw	Stormwater/erosion committee	Update regulations and maintenance plan bylaw for new systems	Public hearings fall 06	Adopted town meeting spring 07

5. Post-Construction Stormwater Management in New Development and Redevelopment

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5
5a	Subdivision Regulation	Planning Board	No net increase of water flows from new construction	In Place	In place
Revised					
5b	Site Plan Review	Planning Board	Storm Water Management Plan required for developments	In Place	
Revised					
5c	Erosion Control Bylaw	Earth removal Committee	Erosion and Sedimentation control	In Place	
Revised					

5a. Additions

5d	Expanded Post construction Bylaw	Earth Removal Planning Board	Revise Bylaw to mimic state regulations	In place	
5c	Updating regulations	Planning Board and Stormwater	All regulations above to be reviewed and updated	Contract signed with CEI spring 07 to review and update all bylaws and regulations	Adopt fall 07 Town Meeting

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5
6a	Environmental assessment	Tom Delaney/ Highway dept	Town facility assessment and environmental compliance	Completed	Follow recommendations
6b	Spill response	Tom Delaney/ Highway dept	Spill plan	In place	Update and training as needed
6c	Illegal Dumping Control	Tom Delaney/ Highway dept	Reduce illegal dumping	Many areas blocked and cleaned up. Signs installed and easier access for composting facility for public.	Continue as needed
6d	Oil Recycling	Tom Delaney/ Highway dept/ Transfer Station	Continue oil collection and Used oil heat technology	Continue with current uses	Continue
6e	Increased frequency of Street Sweeping	Tom Delaney/ Highway dept	Increase sweeping in environmentally sensitive areas	In Place	Continue

6a. Additions

7. BMPs for Meeting Total Maximum Daily Load (TMDL) Waste Load Allocations (WLA) <<if applicable>>

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5
7a Revised	Increase Basin Cleaning	Tom Delaney/ Highway dept	Increase Cleanings in sensitive areas	In Place	Continue
7b Revised	Salt Spreader calibrations to reduce salt usage	Tom Delaney/ Highway dept	Reduce Salt use by 10%	In Place	Continue
7c Revised	Oil traps on Basins in Sensitive areas	Planning Board\ Tom Delaney/ Highway dept	Oil traps in New Subdivisions on all catch Basins	In Place	Continue
7d Revised	Conversion to Leaching Basins when Practical	Tom Delaney/ Highway dept	Recharge ground water when possible	0 Converted 6 built	Continue

7a. Additions

Part IV. Summary of Information Collected and Analyzed

Year 1

Basin Inspections list is being compiled and will be integrated into the mapping phase of our Plan. Details will include if there was an illicit connection, type, condition, oil trap condition if present, dates cleaned, etc..

No other data to report at this time.

Year 2

Nothing new to report at this time. No illicit connections have been discovered during repairs, inspections and cleanings.

Year 3

All location of known manholes, basins, and outfalls have been GIS located and added to our base map system. No illicit discharges were located during mapping and inventory. Several LID workshops and public hearings and New LID and erosion control Bylaw have been approved at Town Meeting to encourage open drainage and LID. Several old as well as new videos were shown on local access channel relative to storm water as well as television interviews with Planning Administrator and Highway Surveyor relative to LID. Town wide mailing of river awareness flyers cosponsored by Nashua River Watershed Association

Year 4

Major components of permit complete.

Information left to obtain for species habitat is forthcoming.

Part V. Program Outputs & Accomplishments (OPTIONAL)

(Since beginning of permit coverage unless specified otherwise by a **, which indicates response is for period covering April 1, 2006 through March 31, 2007)

Programmatic

	(Preferred Units)	Response
Stormwater management position created/staffed	(y/n)	Y
Annual program budget/expenditures **	INCLUDES INSPECTIONS (\$)	8600
Total program expenditures since beginning of permit coverage	(\$)	15K+_
Funding mechanism(s) (General Fund, Enterprise, Utility, etc)	GENERAL	REVOLVING

Education, Involvement, and Training

Estimated number of property owners reached by education program(s) ELECTRIC COUSTOMORS	(# or %)	100%
Stormwater management committee established	(y/n)	Y
Stream teams established or supported	(# or y/n)	Y
Shoreline clean-up participation or quantity of shoreline miles cleaned **	(y/n or mi.)	10+
Shoreline cleaned since beginning of permit coverage	(mi.)	ANNUAL PROGRAM
Household Hazardous Waste Collection Days		
▪ days sponsored **	(#)	2
▪ community participation **	(# or %)	20%
▪ material collected **	(tons or gal)	15k WORTH
School curricula implemented	(y/n)	N

Legal/Regulatory

	In Place Prior to Phase II	Reviewing Existing Authorities	Drafted	Draft in Review	Adopted
Regulatory Mechanism Status (indicate with "X")					
▪ Illicit Discharge Detection & Elimination POLICY					X
▪ Erosion & Sediment Control	X			X	X
▪ Post-Development Stormwater Management					X
Accompanying Regulation Status (indicate with "X")					
▪ Illicit Discharge Detection & Elimination POLICY					X
▪ Erosion & Sediment Control	X				X
▪ Post-Development Stormwater Management					X

Mapping and Illicit Discharges

	(Preferred Units)	Response
Outfall mapping complete	(%)	100%
Estimated or actual number of outfalls	(#)	251
System-Wide mapping complete (complete storm sewer infrastructure) BASINS+MANHOLES	(%)	100%
Mapping method(s)		
▪ Paper/Mylar	(%)	0
▪ CADD	(%)	0
▪ GIS	(%)	100%
Outfalls inspected/screened **	(# or %)	100%
Outfalls inspected/screened (Since beginning of permit coverage)	(# or %)	100%
Illicit discharges identified **	(#)	0
Illicit discharges identified (Since beginning of permit coverage)	(#)	0
Illicit connections removed **	(#); and (est. gpd)	0
Illicit connections removed (Since beginning of permit coverage)	(#); and (est. gpd)	0
% of population on sewer	(%)	10%
% of population on septic systems	(%)	90%

Construction

	(Preferred Units)	Response
Number of construction starts (>1-acre) **	(#)	8
Estimated percentage of construction starts adequately regulated for erosion and sediment control **	(%)	100%
Site inspections completed **	(# or %)	100%
Tickets/Stop work orders issued **	(# or %)	1
Fines collected **	(# and \$)	0
Complaints/concerns received from public **	(#)	MANY

Post-Development Stormwater Management

Estimated percentage of development/redevelopment projects adequately regulated for post-construction stormwater control	(%)	100%
Site inspections (for proper BMP installation & operation) completed **	(# or %)	100%
BMP maintenance required through covenants, escrow, deed restrictions, etc.	(y/n)	Y
Low-impact development (LID) practices permitted and encouraged	(y/n)	Y

Operations and Maintenance

Average frequency of catch basin cleaning (non-commercial/non-arterial streets) **	(times/yr)	3
Average frequency of catch basin cleaning (commercial/arterial or other critical streets) **	(times/yr)	AS NEEDED
Qty of structures cleaned **	(#)	30+_
Qty. of storm drain cleaned **	(%, LF or mi.)	250 FEET
Qty. of screenings/debris removed from storm sewer infrastructure **	(lbs. or tons)	25 TON
Disposal or use of screenings (landfill, POTW, compost, beneficial use, etc.) **	(location)	COMPOST
Basin Cleaning Costs		
<ul style="list-style-type: none"> Annual budget/expenditure (labor & equipment)** 	(\$)	GENERAL

• Hourly or per basin contract rate **	(\$/hr or \$ per basin)	0
• Disposal cost**	(\$)	
Cleaning Equipment		
• Clam shell truck(s) owned/leased	(#)	1
• Vacuum truck(s) owned/leased	(#)	0
• Vacuum trucks specified in contracts	(y/n)	0
• % Structures cleaned with clam shells **	(%)	100
• % Structures cleaned with vactor **	(%)	0

	(Preferred Units)	Response
Average frequency of street sweeping (non-commercial/non-arterial streets) **	(times/yr)	2
Average frequency of street sweeping (commercial/arterial or other critical streets) **	(times/yr)	4+
Qty. of sand/debris collected by sweeping **	(lbs. or tons)	250 TON
Disposal of sweepings (landfill, POTW, compost, beneficial use, etc.) **	(location)	COMPOST
Annual Sweeping Costs		
• Annual budget/expenditure (labor & equipment)**	(\$)	BUDGET
• Hourly or lane mile contract rate **	(\$/hr. or ln mi.)	0
• Disposal cost**	(\$)	0
Sweeping Equipment		
• Rotary brush street sweepers owned/leased	(#)	1
• Vacuum street sweepers owned/leased	(#)	0
• Vacuum street sweepers specified in contracts	(y/n)	
• % Roads swept with rotary brush sweepers **	%	100
• % Roads swept with vacuum sweepers **	%	100

Reduction (since beginning of permit coverage) in application on public land of: ("N/A" = never used; "100%" = elimination)		
▪ Fertilizers	(lbs. or %)	20%
▪ Herbicides	(lbs. or %)	NA
▪ Pesticides	(lbs. or %)	NA

Integrated Pest Management (IPM) Practices Implemented	(y/n)	N

	(Preferred Units)	Response
Average Ratio of Anti-/De-Icing products used ** (also identify chemicals and ratios used in specific areas, e.g., water supply protection areas)	% NaCl % CaCl ₂ % MgCl ₂ % CMA % Kac % KCl % Sand	60 10 0 0 0 0 40
Pre-wetting techniques utilized **	(y/n or %)	Y
Manual control spreaders used **	(y/n or %)	Y
Zero-velocity spreaders used **	(y/n or %)	N
Estimated net reduction or increase in typical year salt/chemical application rate	(±lbs/l _n mi. or %)	20%-
Estimated net reduction or increase in typical year sand application rate **	(±lbs/l _n mi. or %)	0
% of salt/chemical pile(s) covered in storage shed(s)	(%)	100
Storage shed(s) in design or under construction	(y/n or #)	N
100% of salt/chemical pile(s) covered in storage shed(s) by May 2008	(y/n)	Y

Water Supply Protection

Storm water outfalls to public water supplies eliminated or relocated	# or y/n	NONE
Installed or planned treatment BMPs for public drinking water supplies and their protection areas	# or y/n	N
<ul style="list-style-type: none"> Treatment units induce infiltration within 500-feet of a wellhead protection area 	# or y/n	NONE
