Part II. Self-Assessment

The City of Lowell has completed the required self-assessment and has determined that our municipality is in compliance with all permit conditions.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (2006) (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5 (2007)
1.1	Hold annual Earth Day Celebration	Neighborhood Services Department	Event Held	Earth Day held on April 22, 2006. City notified the public about 3 months in advance by newspaper, local access TV and the “After the Storm” brochure was distributed to attendees. Approximately 400 people attended Earth Day activities.	Hold 2007 Celebration (April 28, 2007). City will distribute stormwater flyers during 2006 Celebration

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (2006) (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5 (2007)
1.2	Develop and Distribute Stormwater Brochure	Department of Public Works (DPW)	Develop stormwater brochure in Year 1 and distribute in Year 2	<p>City continues to distribute the adopted EPA Brochure entitled “After the Storm” for stormwater education in the City.</p> <p>The brochure discusses various watershed activities that can influence stormwater runoff volume and quality including Vehicle/Garage Care; Lawn/Garden Care; Home Repair/Improvements; Pet Care; Swimming Pool and Spa Care; Septic System Use.</p> <p>Copies of the EPA brochure are/will be available to the public at City Hall; DPW; Water Plant; Wastewater Plant; City Clerks Office; City Hall; Public Libraries; Division of Planning & Development; Neighborhood Services Department.</p> <p>The DPW delivered 5000 brochures to the Lowell School Department’s curriculum coordinator. The coordinator will work with teachers at the middle and high school level to introduce and discuss topics on the brochure and the impacts different activities have on the environment.</p>	<p>Continue distributing and maintaining copies of the Stormwater Brochure.</p> <p>The recycling coordinator will begin to distribute the brochures during events such as Household Hazardous Waste Collection Day and Earth Day.</p>

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (2006) (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5 (2007)
1.3	Enhance Awareness of Proper Pet Waste Disposal at City Parks	City Clerk, Parks Dept.	Pet Waste Brochure developed in Year 2; and distributed to all licensed dog owners in Years 3-5. Pet waste signs to be installed at City Parks in Years 2-5.	The Stormwater Brochure (discussed above) includes educational information on Pet Care. Flyers discussing the Animal Control Ordinance are available at DPW and posted on signs at the City's parks. Lowell maintains at least 100 signs and adds additional signs each year.	Continue to maintain supply of Stormwater Brochures. Coordinate with City Clerks Office to ensure awareness of Animal Control Ordinance.

2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (2006) (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5 (2007)
2.1	Comply with State Public Notification Guidelines	City Clerk; other City Dept.	Comply with State public notification guidelines	City posted all applicable meetings and environmental awareness events according to state guidelines including local access TV channel.	City of Lowell to continuing development of website-based meeting notifications.
2.2	Hold Annual Household Hazardous Waste/Tire Collection Days	DPW	Hold hazardous waste collection day annually	Household Hazardous Waste Collection Day was held on April 29 & September 30, 2005. The event was noticed in the local newspaper, on local access TV and on the City website. Notices were posted 3 months in advance. Approximately 1,000 residents participated in each event. DPW has the manifest of the household hazardous waste collected.	Hold 2006 Collection Day is planned for next year May 5 & September 29, 2007.
2.3	Install Catch Basin Plaques	Lowell Regional Wastewater Utility	50 catch basin plaques installed each year	The city didn't install any plaques last year because of the CSO separation project start up. The Regional Wastewater Utility is committed to install Catch Basin Plaques at a rate of 50 per year.	The City of Lowell will continue to install Catch Basin Plaques at a rate of 50 per year.

3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (2006) (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5 (2007)
3.1	Map Drain Outfalls and Receiving waters	City Engineering Department	Complete map of outfalls	BMP Completed	BMP Completed
3.2	Continue Inspections of New Sanitary Sewer Connections	City Engineering	Continue existing program	City inspected 175 new/updated sewer connections.	Continue inspections of new sewer connections.
3.3	Continue enforcement of illicit connection/illegal dumping bylaws	City Engineering	Continue existing program	City enforced existing bylaws. Illicit connections/illegal dumping addressed as needed by the City. No violations were found.	Continue to enforce illicit connection/illegal dumping bylaws.
3.4	Dry weather screening of drain outfalls	City Engineering	All outfalls screened once during permit period	BMP Completed	BMP Completed
3.5	Develop and Implement System for Elimination of Illicit Discharges	Lowell Regional Wastewater Utility	Based on prioritized results in BMP#3.4, determine procedures to identify and remove illicit connections to drain; maintain records	City continued education/awareness of potential illicit connection issues.	City to continue program to identify and remove illicit connections.

4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (2006) (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5 (2007)
4.1	Continue to Apply Standard 8 of MA Stormwater Policy	Conservation Commission	Standard 8 of MSP applied	City requires all projects to employ erosion control methods. Approximately 17 projects were reviewed that incorporated stormwater management procedures.	Continue enforcement of Standard 8 for proposed development projects in the City.
4.2	Continue to Inspect/Maintain Control Measures at Construction Sites	City Engineer	Continue Existing Program	City Engineer's Office inspects all sites daily while construction activity is going on. Any activities that needed to be addressed were brought to the attention of the site developer immediately, corrective action was taken and the site was re-inspected. No violations were reported.	Continue City's Site Inspection Policies.
4.3	Continue to Enforce procedures for collection/filing of public comments	City Engineer/ City Clerk	Continue Existing Program	City Clerk keeps public comments on file. When complaints are received, City Engineer's Office responds immediately. No violations were reported.	City to consider the purchase of complaint tracking software to make it easier to log and track complaints in the future.
4.4	Develop and present an Ordinance for Erosion Control Measures and Construction Material Management for Construction Sites more than 1-acre.	City Engineer	Draft Ordinance language and present to City Council for approval	City continued the process of revising Rules and Regulations governing site developments and erosion control. Currently, the City Engineer and Planning Board have enforced erosion control measures for all projects that have come under their review for the last seven years.	Planning Board to complete revisions to Rules and Regulations that adopt formal guidelines for erosion control for developments of one acre or more. Approval of the Rules and Regulations is dependent on City Council vote.

5. Post-Construction Stormwater Management in New Development and Redevelopment

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (2006) (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5 (2007)
5.1	Continue application of Planning Board Rules and Regulations for Subdivisions	City Engineering	Continue enforcement of existing regulations	City has enforced Rules and Regulations for all projects that have come under its review. Seventeen (17) projects were reviewed last year.	Continue enforcement of existing Rules and Regulations. Revise accordingly – see BMP 4.4.
5.2	Apply Standards 2, 3, 4, 7 and 9 of MA Stormwater Policy to the entire City	City Engineering	Develop/Incorporate modifications to existing regulations as needed	City Engineer’s Office and Planning Board have enforced erosion control measures for all projects that have come under their review for the last seven years. Planning Board is in the process of revising its Rules and Regulations. City expects to incorporate formal reference to the MA Stormwater Policy Standards.	City to complete revisions to Rules and Regulations. Approval of the Rules and Regulations is dependent on City Council vote.
5.3	Develop/Implement Ordinance/Regulation to ensure long-term maintenance of private structural BMPs.	City Engineering	Draft Bylaw developed and presented to City Council	City enforces stormwater management in all projects that come under its review. Each development that incorporates a private BMP must submit an Operations and Management Plan for the BMP.	City to complete revisions to Rules and Regulations. Approval of the Rules and Regulations is dependent on City Council vote.

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (2006) (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5 (2007)
6.1	Continue Street Sweeping Program	DPW	Percentage of streets swept annually with emphasis on sensitive receptors	City maintained its current street sweeping and residuals disposal program schedule. More than 90% of streets were swept.	Continue existing program.
6.2	Continue Catch Basin Cleaning Program	Lowell Regional Wastewater Utility	Percentage of catch basins cleaned annual; with emphasis on sensitive receptors	City maintained its current catch basin cleaning and residuals disposal program schedule. Approximately 20% of catch basins were cleaned.	Continue existing program.
6.3	Continue Salting and Snow Removal Practices	DPW	Continue existing programs for salt storage/use and management, especially in sensitive areas	City continued its existing salt storage/snow removal practices. No changes are noted. Records of salt use are kept by DPW. City continued to consider salt reduction methods and used deicing alternatives whenever practical.	Continue existing program.
6.4	Continue Vehicle Washing Practices	DPW	Continue existing program in DPW yard	City vehicles were washed in approved areas.	Continue existing program. Modify practices as necessary to minimize stormwater impacts.
6.5	Continue Vehicle Maintenance	DPW	Continue existing program in DPW yard	City vehicle maintenance was performed in approved areas. Approved waste handlers disposed vehicle material waste of off-site.	Continue existing program. Modify practices as necessary to minimize stormwater impacts.
6.6	Park and Landscape Maintenance	Parks Department	Minimize herbicides, pesticides, fertilizers in sensitive areas; maintain records	The City only applies fertilizers to areas with irrigations systems. Records of fertilizer/herbicide/pesticide use are maintained by the Parks Department. The City has reduced its use of fertilizers to improve stormwater quality.	Continue existing program. City to continue to examine existing fertilizer practices and make revisions as necessary to minimize impact to stormwater runoff and receiving streams.
6.7	Employee Education Program	DPW	Four hours of training on stormwater topics per permit term	City reviewed potential training materials.	City to initiate targeted training of selected employees on storm water impacts during this period.

7. BMPs for Meeting Total Maximum Daily Load (TMDL) Waste Load Allocations (WLA)

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 4 (2006) (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 5 (2007)
