Re: Annual Report – Year 6
NPDES General Permit MS4
EPA MAR041170/DEP W-21004707
Town of Webster, Massachusetts

*** Sent Certified Mail ***

Dear Ms. Velez:

Please find enclosed the NPDES Phase II Small MS4 General Permit Annual Report for the Town of Webster, Massachusetts. This information is submitted to the EPA in accordance with EPA’s Annual Reporting requirement. Due to changeover in key DPW and Town management positions, the Town was not aware that an annual report was required for submittal for the 2008/2009 period until recently.

If you have any questions regarding this information, please contact me at (413) 572-3256. Thank you for your attention in this matter.

Sincerely,

TIGHE & BOND, INC.

Part II. Self-Assessment

The Town of Webster performed a comprehensive review of the town’s progress on the goals for meeting the minimum control measures under the NPDES MS4 Phase II permit. The Town supports and encourages active participation by Town residents in addressing pollution and stormwater issues. The Town has mapped stormwater outfalls and has made stormwater quality improvements by installing stormceptor units in the system. The Town is reviewing existing regulations, including the Massachusetts Wetlands Protection Act and the recently revised MADEP Stormwater Management Standards. The Town’s efforts to meet the identified measurable goals are summarized in Part III Summary of Minimum Control Measures, which follows.
### Part III. Summary of Minimum Control Measures

#### 1. Public Education and Outreach
