Part II. Self-Assessment

The 102d Intelligence Wing located at Otis Air National Guard Base has completed the required self assessment and has determined the base to be in compliance with all permit conditions. Stormwater Phase II Program: Annual Self Audit is provided as Attachment I.

Please note that Otis Air National Guard Base is a military facility; therefore, some operating and budgeting procedures may be different than a typical municipality.

Mission Change

Mission realignment has resulted in a smaller footprint that will reduce environmental impacts at Otis ANG Base. There is a reduction of industrial shops located within the 102IW property boundaries which ultimately reduces the risk of stormwater pollution.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 7 (Reliance on non-municipal partners indicated, if any)	Planned Activities –
1B	Stormwater Education and Materials	102 Mission Support Group / Environmental Management Office (102 MSG/EM)	Track number of employees trained	45/50 Employees that work in industrial areas complete stormwater P2 training via a DVD presentation. Documented via training records.	Continue with annual employee training and including stormwater P2 statement in annual distribution of Water Quality Reports
Revised	N/A	N/A	N/A	A public outreach statement was included in our annual Water Quality Report, of which approximately 3,000 were distributed in June 2010. Otis Notice news flyer, Consumer Confidence Report, and internal web page	
1A	Trash Management Enhance employee awareness on the impacts of improper trash management Conduct quarterly inspections to verify proper trash management practices are in use	102 Mission Support Group / Environmental Management Office (102MSG/EM)	Track location and dates of trash pick-up. Document inspections	Implemented Adopt-A-Building program which wing personnel routinely removed trash and litter in and around premise Inspections of trash management practices are included in the weekly Satellite Accumulation Point inspections and quarterly Best Management Practices Inspections required by the 102IW MSGP	Continue with Adopt-A-Building program and inspections of trash management in the future out years.

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 7 (Reliance on non-municipal partners indicated, if any)	Planned Activities –
6G	Storm Drain System Cleaning	102 Civil Engineering	Compile list of areas cleaned, quantity of material collected and dates cleaning was scheduled/conducted	Street sweeping is conducted periodically. Street sweeping material is collected during each sweeping. All roads and parking lots located within the 1021W property boundaries were swept during this reporting period. Emphasis was placed on Granville Ave due to the construction project taking place off of that roadway. Estimate greater than 15,600 lbs. of sand and debris collected	Continue street sweeping activities to prevent materials from entering into the storm sewer system.
