Part II. Self-Assessment

Responsibilities for some tasks under this permit have been assigned to a contract vendor, United Water (formally Aquarion Operating Services), under contract with the City as of October 2005. As such, the “Responsible Department/Person Name” category has been updated for all tasks that have been completed by United Water in Permit Years 4 through 8. In addition, the “Person Name” for both the Conservation Commission and for United Water has been updated during this past permit year.

Due to a delay in the issuance of the new General Permit, Permit Year Five BMP goals were extended through to Permit Year Eight. A final Massachusetts Interstate, Merrimack and South Coastal Small MS4 General Permit is anticipated in 2011. The City and United Water have completed the required self-assessment and have determined that Holyoke is in compliance with all permit conditions.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach
