## **Part II. Self-Assessment**

### **REPORT OF THE STORMWATER COMMITTEE**

In March of 2003, the Town of Hampden submitted a Notice of Intent and a five year Stormwater Management Program as required by the U.S. Environmental Protection Agency (EPA). The Program consists of various tasks and timelines which address 6 Minimum Controls as outlined by the EPA. Since that time, the Town has addressed the 6 minimum control standards, with significant input from a Stormwater Committee.

The Committee forwarded the goals of EPA's 6 Minimum Controls by implementing tasks delineated in Notice of Intent/Stormwater Management Program. Many of the tasks started by the Committee continue to be implemented by others, including the Highway Department, Board of Health, Board of Selectmen and teachers at the Thornton Burgess Middle School. The stormwater-related bylaws have been enacted and are being enforced by the Town.

The effort and dedication of the Committee and Community volunteers as well as Town staff make this program a success.
