## NPDES PII Small MS4 General Permit Annual Report

### Part I. General Information

**Contact Person:** Jeffrey J. Quick, A.I.A. **Title:** Director, Division of Resource Management

---

**Telephone #:** (508) 541-5301 x11 **Email:** JJQuick@doc.state.ma.us

---

**Mailing Address:** 21 Needham Street, Norfolk, MA 02056

---

#### Certification:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

## Part II. Self-Assessment

The Department of Correction (DOC) received correspondence from the Environmental Protection Agency (EPA) on May 28, 2004 determining the Notice of Intent (NOI) submission was administratively complete. From the time the NOI's were prepared and before they were submitted the DOC began a prioritization list of areas for investigation including but not limited to:

- Entry Points into the storm drainage system(s) maintained by the DOC.
- Documentation of discharges points on and off the DOC property.
- Coordination with Framingham as their collection system receives DOC water and then returns back to DOC property.
- Illicit connections identification (None were found).
- Investigation of infrastructure and identification of problem drainage areas.

Through the State of Massachusetts Clean State Program, an oil-water separator was installed to handle parking lot drainage. In summary, the storm drainage systems operated by the DOC are not combined systems where sewer and storm water are served by the same system.

In the past year no problems that required attention were identified. The facility has undertaken a regular inspection program to repair older catch basin structures.

Many of the milestones and goals have been met – however, due to funding issues, others are still in progress.

**Part III. Summary of Minimum Control Measures**

**1. Public Education and Outreach**

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) -- Permit Year 8 (Reliance on non-municipal partners indicated, if any)	Planned Activities -- Permit Year 9
1 Revised No	Publicize/Present SW Program to staff	Div. of Res. Management	Publicize and Present Program to	Conduct facility specific training with maintenance staff and other stakeholders in this program.	Continue with additional training as funding is identified.
2 Revised No	Distribute Printed Materials	Div. of Res. Management	Create and Post Material	Provide written updates and progress reports to management staff.	Provide written updates and progress reports to management staff
3 Revised Yes/New	Intranet Posting Preparation of Newsletter	Div. of Res. Management	Post Materials	Completed separate Intranet page. In addition, a newsletter that highlighted the Stormwater Phase II program was completed and distributed.	Periodic updates as needed.
4 Revised No	Stenciling	Div. of Res. Management	Complete stenciling	No Stenciling completed this year due to operations and other security issues	Upkeep of existing stenciling and continue with remainder.

### 3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 8 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 9
7 Revised	Map Drain System	Div. of Res. Management	Complete Mapping	Mapping completed. Outfall locations sent to EPA during NOI submittal. Began work mapping outfalls with GIS software.	Continue with mapping of outfalls with GIS software. GPS Equipment purchased and MASS GIS mapping software acquired. Integrate outfalls with large comprehensive mapping.
8 Revised	Dry/Wet Weather Surveys	Div. of Res. Management	Document and Prioritize	Wet weather survey did not identify piping problem. Storm drains require minor repairs. Funding limited ability to make all repairs.	Prioritize those catch basins that require repairs.
9 Revised	Correct Problems	Div. of Res. Management	Make Repairs and Document	Minor repairs to catch basins	Pending budget catch basin and piping repairs as needed
10 Revised	Policy for Enforcement	Div. of Res. Management	Prepare Policy	Stormwater Committee to be charged with preparation of policy. Policy in place that ties in sustainable practices with this BMP.	Update policy as needed. Review for improvements.

7b. WLA Assessment

**Part IV. Summary of Information Collected and Analyzed**

At MCI-Framingham the location of the drain lines and outfall have been identified. The primary drainage system discharges into the storm drain system operated by the Town of Framingham. The Framingham DPW has reached out to the DOC to evaluate how our system connects to the Town's. Progress has been made in locating connections and sizing of piping.

In summary, the DOC has a very good understanding of the drainage system and has taken the necessary steps to prevent pollution from entering the drain system. Cleaning which occurred over the past 15 months did not indicate that significant repairs or other drain maintenance was necessary.

Inmate labor is used to pick up litter and other road side debris several times per year.

No illicit connections were found.

**Part V. Program Outputs & Accomplishments (OPTIONAL)**

**Programmatic**

	YES	Staff by DRM
Stormwater management position created/staffed		
Annual program budget/expenditures	(\$)	

**Education, Involvement, and Training**

Estimated number of residents reached by education program(s)	100%	DOC Staff
Stormwater management committee established	Yes	
Stream teams established or supported	(# or y/n)	
Shoreline clean-up participation or quantity of shoreline miles cleaned	NA	
Household Hazardous Waste Collection Days	NA	
<ul style="list-style-type: none"> <li>▪ days sponsored</li> </ul>	(#)	
<ul style="list-style-type: none"> <li>▪ community participation</li> </ul>	(%)	
<ul style="list-style-type: none"> <li>▪ material collected</li> </ul>	(tons or gal)	
School curricula implemented	NA	

**Legal/Regulatory**

	In Place Prior to Phase II	Under Review	Drafted	Adopted
Regulatory Mechanism Status (indicate with "X")				
▪ Illicit Discharge Detection & Elimination				
▪ Erosion & Sediment Control	X			
▪ Post-Development Stormwater Management		X		
Accompanying Regulation Status (indicate with "X")				
▪ Illicit Discharge Detection & Elimination		X		
▪ Erosion & Sediment Control		X		X
▪ Post-Development Stormwater Management		X		

**Mapping and Illicit Discharges**

Outfall mapping complete	100%			
Estimated or actual number of outfalls	Two (2)			One to unnamed tributary, One is manmade swale.
System-Wide mapping complete				
Mapping method(s)				
▪ Paper/Mylar	100 %			
▪ CADD	100%			
▪ GIS	80 %			
Outfalls inspected/screened	100 %			
Illicit discharges identified	Zero (0)			
Illicit connections removed	NA			
% of population on sewer	(100 %)			
% of population on septic systems	(0%)			

**Construction**

Number of construction starts (>1-acre)	None
Estimated percentage of construction starts adequately regulated for erosion and sediment control	NA
Site inspections completed	NA
Tickets/Stop work orders issued	NA
Fines collected	NA
Complaints/concerns received from public	None

**Post-Development Stormwater Management**

Estimated percentage of development/redevelopment projects adequately regulated for post-construction stormwater control	NA - 0%
Site inspections completed	NA
Estimated volume of stormwater recharged	NA

**Operations and Maintenance**

Average frequency of catch basin cleaning (non-commercial/non-arterial streets)	1 time / year
Average frequency of catch basin cleaning (commercial/arterial or other critical streets)	NA
Total number of structures cleaned	1
Storm drain cleaned	0
Qty. of screenings/debris removed from storm sewer infrastructure	(lbs. or tons)
Disposal or use of sweepings (landfill, POTW, compost, recycle for sand, beneficial use, etc.)	Yes 5 cy
Cost of screenings disposal	(\$) TBD

Average frequency of street sweeping (non-commercial/non-arterial streets)	NA
--	----

Average frequency of street sweeping (commercial/arterial or other critical streets)	0/yr contract
Qty. of sand/debris collected by sweeping	(lbs. or tons)
Disposal of sweepings (landfill, POTW, compost, beneficial use, etc.)	(location)
Cost of sweepings disposal	(\$)
Vacuum street sweepers purchased/leased	Contracted Services
Vacuum street sweepers specified in contracts	NO

Reduction in application on public land of: ('N/A' = never used; '100%' = elimination)	
▪ Fertilizers	NA
▪ Herbicides	NA
▪ Pesticides	NA

Anti-/De-Icing products and ratios	10% NaCl 0% CaCl <sub>2</sub> 0% MgCl <sub>2</sub> 0% CMA 0% Kac 0% KCl 90% Sand
Pre-wetting techniques utilized	-
Manual control spreaders used	-
Automatic or Zero-velocity spreaders used	-
Estimated net reduction in typical year salt application	TBD
Salt pile(s) covered in storage shed(s)	No
Storage shed(s) in design or under construction	NA
	No storage
